### TEEF

Unlike brushing a dog's teeth, TEEF is ridiculously easy to use. Just scoop, add and drink. Each drink helps to evenly disperse TEEF's formula on all surfaces of the mouth, working on the bacteria that exist everywhere, even below the gum line. The quadruple-action formula promotes strong teeth, healthy gums and fresher breath. Made with 100 percent safe, plant-derived ingredients that are tummy-friendly and flavorless.

### YUMMY COMBS

Yummy Combs are made wide with thin walls to floss and scrub teeth 360 degrees to the gum line and deter gulping. It's a complete and balanced treat that's designed with a board-certified veterinary specialist in dentistry and nutrition. Safety, oral care and wellness are the heart of this groundbreaking, high protein dog treat.

### BENEBONE PUPPY LINE

Benebone's puppy line features its popular Wishbone, Dental Chew, Maplestick and Zagger. They're a bit softer than their adult counterparts, and they are bursting with real bacon and maple wood flavor. Always made in the U.S.A., these dental chews are offered in tiny (under 15 pounds) and small (under 30 pounds) sizes.

### ORATENE BRUSHLESS ORAL CARE

Oratene Brushless Oral Care brings the power of enzymes to help keep dogs and cats' teeth clean, breath fresh and gums healthy. The oral care is veterinarian recommended, works without brushing and includes a Drinking Water Additive, a Brushless Toothpaste Gel and Breath Freshening Spray. Contains no xylitol, chlorhexidine, detergents or dyes.
