

THE ESSENTIALS

DOGSWELL WOUND & INFECTION MEDICATION

Dogswell Remedy + Recovery Wound & Infection Medication for Dogs is a topical lotion for use on cuts, burns, bites, stitches and infections. This antimicrobial cleans the area around wounds or broken skin, kills bacteria that cause infection and speeds the return to healthy skin. Rejuvenates oxygenates the skin layers to promote healing. Available in four-ounce bottles.

TOMLYN

Tomlyn's Pre & Probiotic Nutritional Supplement contains the highest colony forming units (CFUs) on the market and is a source of live (viable) naturally occurring microorganisms. The formula contains a prebiotic to support the growth of beneficial bacteria and the five probiotics. The direct-fed microbial cultures in Pre & Probiotic supply beneficial microorganisms that occur naturally in the hindgut of healthy animals.

ARKUS DAILY

Native Microbials has launched Arkus Daily, the first and only probiotic made with microbes that exist naturally in healthy dogs. Containing only five all-natural ingredients, Arkus is non-GMO, gluten-free and soy-free. When the powder is sprinkled on food each day it helps optimize the dog's microbiome, supporting better gut health and a stronger immune system.

ORGANIC DENTAL SOLUTIONS

The Organic Dental Solutions Bamboo Dental Kits is your perfect pet dental essential. The USDA-certified organic kits feature an eco-friendly, sustainably harvested moso bamboo toothbrush. The biodegradable and anti-microbial handle is from one piece of naturally grown moso bamboo from a FSC Certified Forest. For improved grip, it is coated in organic soybean wax and free of toxic glues or paints and has ergonomic, dental-grade, nylon bristles that can be recycled.
