**SUPERHERO SPOTLIGHT**

**Rep. Hakeem Jeffries (D-NY)**

"Congressman Hakeem Jeffries, who is a personal friend of mine. He is a great role for the State of New York in Washington. His voice, his leadership has been pivotal, not just for New York, but for the entire Nation."

The Congressman worked tirelessly to put together this arrangement as an encouraging today with the churches. The Congressman saw the need and he reached out to the church groups and brought them together to be where we are on today. - Gov. Andrew Cuomo (D-NY)

"We know this is an extraordinary pandemic and requires an extraordinary governmental response at all levels of government. It is all hands on deck at the City, State and Federal level. Now, at this moment, thanks to their continued engagement and your leadership and willingness to partner, we can address this COVID-19 pandemic with these houses of worship and religious leaders who have the credibility, the authenticity, and the capacity to reach those in the community who need to be tested."

Because at the end of the day, this is not over for any of us until it is over for all of us, and as you have indicated, we know communities of color have been hit particularly hard. We have disproportionately overrepresented amongst frontline workers, live in dense environments, and have historically been under-represented throughout the Nation. This testing initiative will be incredible and ensuring we can turn the corner in communities of color and our most impacted as well as those represented by great members of the "community". - Rep. Hakeem Jeffries (D-NY)
