Markus Cadruvi and DeeCee Style

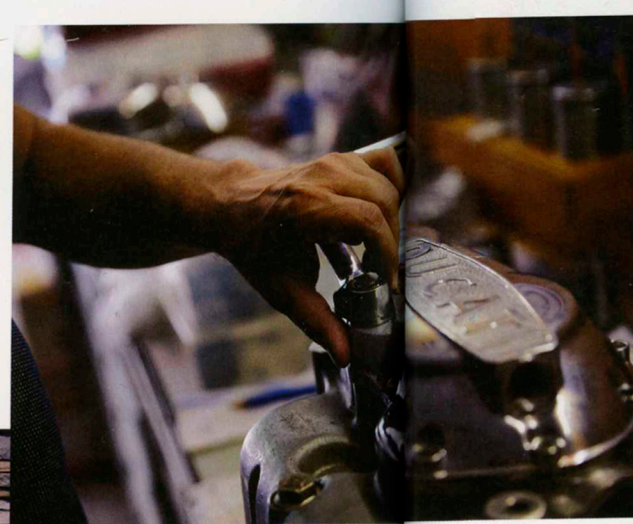

Photography: Matt Hind

Markus and Pia Cadruvi from DeeCee Style can be seen at every important event in the men's heritage calendar from Los Angeles to Tokyo – and most places in between. They know that buying what others don't have is the secret to a great store and to do that you need to travel and be vigilant and in contact with new makers, brands and ideas. The shop itself started in 2009 and is located in the financial district of the lake-side town. The two Zurich style-makers live outside the city where Mr Cadruvi can keep and ride his treasured Italian and British classic motorcycles. Of all the great places to visit in Zurich DeeCee must not be missed.
