#### 4 FIRST-AID MEASURES

As a general rule, in case of doubt or if symptoms persist, always call a doctor.  
NEVER induce swallowing by an unconscious person.

Description of first aid measures:

In the event of splashes or contact with eyes :

Wash thoroughly with soft, clean water for 15 minutes holding the eyelids open.

Regardless of the initial state, refer the patient to an ophthalmologist and show him the label.

In the event of splashes or contact with skin :

Remove any soiled or splashed clothing immediately.

Watch out for any remaining product between skin and clothing, watches, shoes, etc.

If the contaminated area is widespread and/or there is damage to the skin, a doctor must be consulted or the patient transferred to hospital.

In the event of swallowing :

Do not give the patient anything orally.

Seek medical attention immediately, showing the label.

Most important symptoms and effects, both acute and delayed

No data available.

Indication of any immediate medical attention and special treatment needed: No data available.

#### 5 FIRE-FIGHTING MEASURES

Extinguishing:

Not flammable or combustible – use extinguishers suitable for surrounding fire

Exposure Hazards:

May evolve toxic fumes of chlorine if involved in fire.

Protective Equipment for fire fighting:

Self-contained breathing apparatus

#### 6 ACCIDENTAL RELEASE MEASURES

Personal Precautions:

Wear gloves, chemical goggles. Isolate leaking containers and stop leak if safe to do so. Ventilate the area to clear fumes

Environmental Precautions:

Prevent entry into drains and water courses

Methods for Cleaning Up:

Soak up with inert absorbent and dispose of in accordance with local regulations. Do not soak up with combustible absorbents (may ignite on drying out). Wash spillage area well with water.

#### 7 HANDLING AND STORAGE

Handling:

Use in well-ventilated area. Do not breathe mist and avoid contact with eyes, skin and clothing. Avoid contact with naked flames and hot surfaces or weld in the presence of vapors. The usual precautions for handling chemicals should be observed.

Storage:

Keep container dry. Keep in a cool, well-ventilated place. Store away from acids.
