## Flycam Body Pod Setup

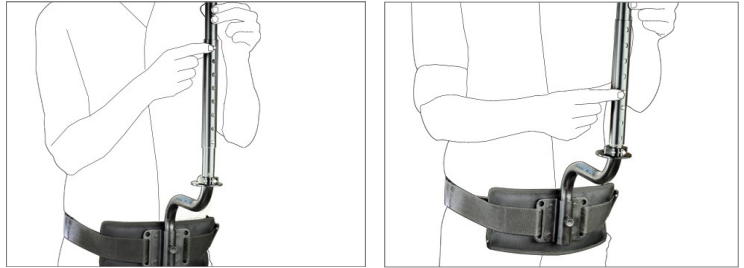

- Wear the padded waist belt and tighten buckles at your convenience.

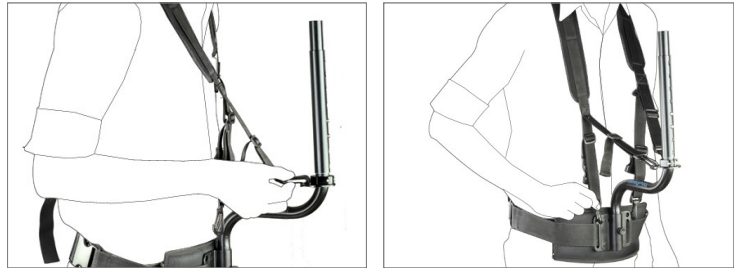

- Insert the curved body support tube into the waist belt and attach 20cm Extension Riser and secure it with the help of provided knob.

- Attach 17.5cm or 14.5cm extension riser to the curved body support tube as per your personal height preference.

- Wear support belt and attach one end of the strap to the port on the curved body support and the other end to the port on the waist belt. Repeat the same process for another side.

## Direct Stabilizer Mounting

- Attach the camera stabilizer to the body pod by inserting the curved body support tube into the handle of the camera stabilizer.
