INTRODUCTION

Flycam Truecam is a gimbal which is masterfully designed for Handheld Stabilizers and to keeps the camera horizontal no matter how you move the stabilizer. Truecam completely isolates roll of the camera. Now you can move from high mode to low modeand back again, in one single fluid, cinematic shot while your camera automatically remains level and horizontal at all times.

This CNC Aluminum constructed Flycam gimbal when combines with the Flycam stabilizers provides stable videos. You can evenrotate the stabilizer a full 360°, and the camera will keep its position the entire time. Its custom sensors, powerful motors and advanced algorithms put world-class precision in your hands.

IN THE BOX

lease inspect the contents of your shipped package to ensure you have received all that is pictured and listed below.

Truecam Head with 1/4"-20 Camera Bolt

USB Cable
