## INTRODUCTION

A small, light setup solution expandable to a more elaborate setup enables you to mount multiple photo/video accessories for use with your camera system. Its design **prevents the camera from "twisting"** on the rail support and raises the camera to the standard height. Proaim Rail System is specifically designed to work for **Follow Focus and long lenses**. This Rail System comes with **standard 15mm rods** which are compatible with Arri and other accessories such as Follow Focus, Matte Box, etc.

## IN THE BOX

Please inspect the contents of your shipped package to ensure you have received all that is pictured and listed below.

Tripod plate

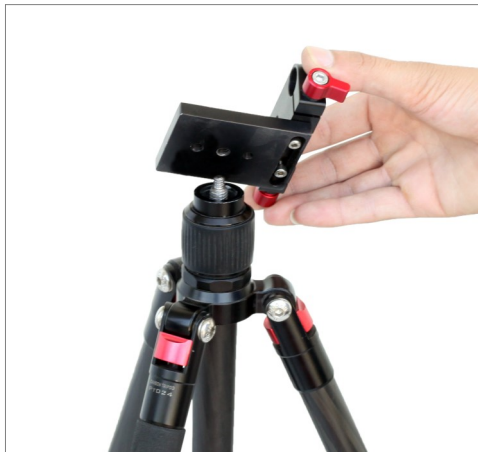

Quick release plate

2x 300 mm female rods

## ASSEMBLING YOUR RAIL SYSTEM

- Attach the tripod plate with the 1/4"-20 mounting threads onto the tripod then insert 300mm female rods and tighten the knob.

- Insert your quick release plate and tighten the knob, push the side pin and remove the top plate of quick release plate.

- Attach your top plate with your camera and tighten the screw properly. Then mount your camera onto the quick release plate and tighten the knob.
