## ■ Attaching the Levelling Legs Setup

- Insert the adjustable leveling legs into the end feet adapter and tighten the knob to secure it.

## Attaching the Track

- Loosen the knobs of the end feet & insert the track rails (Not Included) into it, and then tighten the knobs tightly to secure it.

## ■ Assembling the Dolly Setup

- Mount the camera Dolly on the track (Not Included), as shown.

**NOTE:** Always mount dolly on rigid tracks.

- Remove the side knobs of the Dolly and attach the safety wheels on either side. Secure them by tightening the knobs.

- Loosen the side knobs of the Dolly in order to tilt the camera platform that can incline up to 52°. Adjust and lock it to your desired angle by locking the knobs.

- Now attach the elastic stoppers on both the rails to prevent the Dolly from getting dislocated. These can also be used as wheel brakes.

- By default, a standard 100mm bowl receptacle is affixed to the Dolly.

**NOTE:** Fusion Dolly accommodates 4 Camera Mounting Heads. 75mm Bowl / 100mm Bowl / 150mm Bowl / Mitchell Base.

- You can mount a 75mm conversion ring to use 75mm bowl head.

- You can also mount a 150mm conversion ring to use 100mm bowl head.

- Remove the 100mm bowl receptacle from the platform & attach the Mitchell plate on it. Tighten the assembly with the help of provided tools.

- Now you can mount your camera setup as desired.

## Attaching the Supports

- Remove the hook from the junior pin adapter and insert it into the end feet.

- Then loosen the knob of the junior pin adapter and mount the track system (Not Included) on a stand (Not Included) via the adapter. Tighten the knob to secure it.

- Now, remove the hook from the junior pin adapter, and insert it into the support bracket, as shown in the image.

- Tighten the assembly by twisting the adapter.

- Place this support bracket below the track (Not Included) system, and then mount your camera setup, as shown in the image.

### To Use Dolly As Underslung

- Attach the 100mm bowl receptacle to the bottom of the Dolly and tighten it with the help of the Allen key.

- You can mount your camera in an underslung orientation.
