## 3-in-1 Superball Tripod Ball Head Setup

- Mount the ball head on the tripod stand (**Not Included**) and twist the head clockwise to tighten it.

**Feature:** The premium equipment is engineered with attention to detail and functionality to serve as a ball head, gimbal head, and leveling panoramic head.

- Attach the arca-type quick-release plate to the camera (**Not Included**) by tightening its bolt using the Allen key, as shown in the image.

- Press the detent pin of the quick-release plate and slide the camera (**Not Included**) onto the plate.

**Feature:** The clamp has a single bubble level that balances and levels the camera for leveled shots.

- Secure the Camera using the locking lever.

**NOTE:** It includes a locking lever and a detent pin that prevents the camera from sliding -off.

- Convert the ball head into a standard functioning ball head for panning shots by loosening the independent pan-locking knob.

**Feature:** You can unlock the independent pan lock and rotate your lens to achieve smooth panning shots.

- Re-tighten the knob after filming panning shot, as shown in the image.

**NOTE:** You can increase or decrease the ball head's tension via the provided tension control knob.

- The smartly designed 3-in-1 Superball Head offers you leverage to position your camera in various shooting angles.

- You can position the camera **(Not Included)**, according to your requirement, as shown in the image.

- After positioning the camera **(Not Included)**, secure it using the tension control knob.

- To convert the 3/8"-16 base mounting of the ball head into 1/4"-16, insert BS100 and mount the ball head on the Tripod stand **(Not Included)**.

**NOTE:** With the clamp removed, the ball head's stem has the same 3/8"-16 mount as the base.

- Now, loosen the bolt of the Arca-Type quick release Plate using the Allen key.

- Remove the bolt to mount the quick release plate after reversing the ball head.

- Now, re-insert the bolt, as shown in the image.

- After inserting the bolt, tighten it using the Allen key.

**Feature:** It has an Arca-type quick-release clamp on the head, with a laser-engraved scale, allowing you to balance a telephoto lens at a 90° angle for using it as a gimbal head.

- Mount the ball head on the tripod stand **(Not Included)**.

- The setup is finally ready.
