Back Panels Setup

- Align the threads of the Cart with the Top Plate to cover the back side of the Soundchief Cart and then insert an Allen Bolt.

- Then, tighten the bolt with the help of an Allen Key, as shown in the image.

NOTE: Properly align the Back Panel and the Soundchief Cart together. Then insert the bolts and equally tighten them all. If the bolts are not all equally tightened, the threads can't be properly matched to that of the plate.

- The Top Plate has been properly attached to the Soundchief Cart.

- Properly align the Bottom Plate to the bottom of the Soundchief Cart by matching the threads.

- Then insert the Allen bolt matching the holes, then tighten with the help of Allen key.

- Similarly, follow the same process to attach the remaining all Allen bolts.
