Clip Foldable Travel Track Setup

- Place all the track pads onto a flat surface, three on each side, and join them together with the help of attached Velcro strips.
- Unfold all the sections of both lengths of track, as shown in the image.

NOTE: The track sections are connected with a solid integrated elastic cord that effortlessly tows each of them. It also makes it impossible to lose out on any section.

- Place both the lengths of track onto track pads. Attach one end stopper each on both the lengths of track in opposite directions. It will prevent the dolly from getting dislocated.
