Cube Trio-Reflector Setup

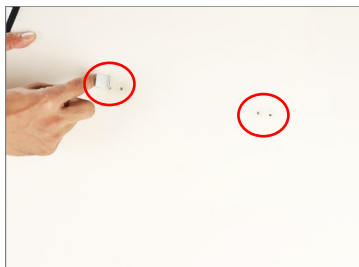

- Loosen knob of the T-Bar and mount it a C-Stand (**Not Included**), as shown in the image.
- After mounting the T-Bar, secure it by tightening its knob.
- Now, loosen the knob of the Reflector arm.
- Attach the Reflector arm with the T-Bar.
- Repeat the same process with the second Reflector arm.
- After attaching the Reflector arm, tighten its knob to secure the arms properly.
- Loosen the adapter from the Reflector arm.
- The Reflector arm can be moved per your requirement.
- Set the adapter per your requirement and tighten it.

- Remove bolts from the Quick clips, as shown in the image.

- Attach the Quick clips to the Reflector and secure them using the bolts from the backside.

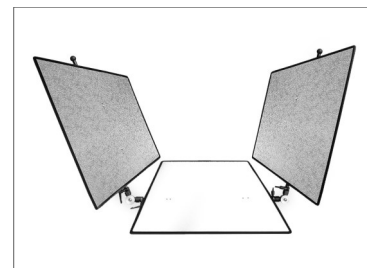

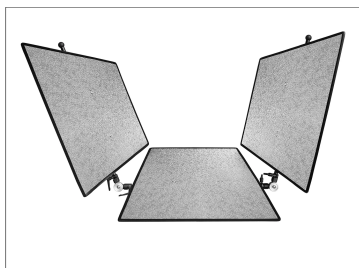

- Attach the Reflector with the reflector arm, as shown in the image.

NOTE: Quick clips are included on both panel sides for mounting the reflector arms.

- The reversible silver/white Reflector has a multi-angle adapter for positioning at any angle.

Feature: The Silver Fabric is more reflective. The white cloth removes uncorrected glare from the subject.

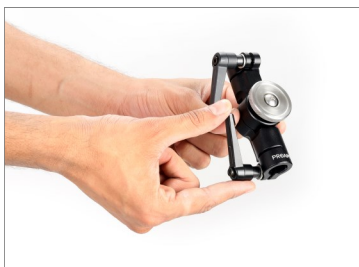

- Loosen the knob of the standard adapter and mount it on the C-Stand (Not Included).
- Now, secure it by tightening back the knob.

Feature: The reflector fits standard 5/8 light stands and c-stands with its compatible baby pin receiver.

- Loosen the knob of the Multi adaptor and mount it on the standard adaptor.

- After mounting the Multi adaptor, secure it using the knob.

- Now, insert the Spigot in the multi-adaptor.

- After the insertion, secure it by tightening the knob.
- Mount the T-bar with the Reflector arm on the Spigot.

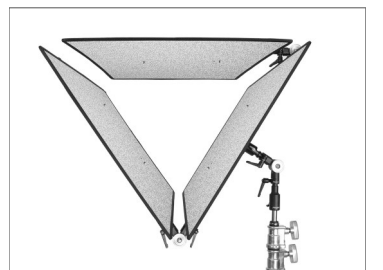

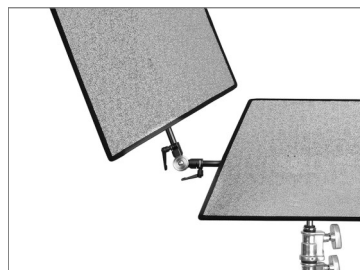

- After mounting on the Spigot, tighten the knob and loosen the adapter for the movement of the Reflector, as shown in the image.

- The setup is fully assembled.

Feature: The Reflector can be mounted separately or all three together with 360° panel orientation, allowing you to set panels horizontally, vertically, single panels in a row, or at any angle without moving the entire setup.
