Foam with Bag Packing

## Curve-N-Line Video Camera Slider Setup

• Loosen the knobs of both end feet to adjust them as per your requirement.

• Using an allen key, unscrew the bolts from both ends of the slider to attach the end feet.

- Attach the camera mounting plate assembly onto the slider and tighten it with the help of the knob provided.
- Attach one end of the provided 3m wire with the motor and another end with the remote controller as shown.

#### Motor With Slider Setup

Caution: While performing this step, ensure that your camera plate is mounted onto the slider.

• Push the motor towards your side and pull the lever to attach the motor to the slider.

- Screw the fluid head (Not Included) onto the slider's camera mounting plate and detach the fluid head's quick release plate to mount the camera.
- Attach the camera to the fluid head's quick release plate, tighten the screw with a screwdriver (Not Included), and mount it on the fluid head.
- Now tighten the knob to secure it properly.

**NOTE:** Remove the motor by unscrewing the allen bolt using an allen key to use it manually.

#### **REMOTE CONTROLLER**

The controller can program precise camera movements for interviews, establishing shots, and other camera movements.

- Batteries: 12V DV battery (Not Included) / 12V DC adapter (Included)
- Red LED Indicates Power ON/OFF
- Orange LED Indicates when using Battery / DC Adapter
- Green light blinks continuously in manual mode
- Green light on continuously on auto mode
- In Auto Mode: Motor Move left or right in automatically
- Normal Mode: Move motor left or right in Manually.

#### YOUR PROAIM CURVE-N-LINE VIDEO CAMERA SLIDER WITH MOTION CONTROL SYSTEM ALL DRESSED UP AND READY TO GO!
