Flying PRO 4ft Mitchell Slider Setup

- Loosen the castle ring present at the backside of the Mitchell Slider using a castle wrench.

- After loosening the castle ring, remove it from the Mitchell slider.

- Mount the Mitchell slider on a Mitchell stand (Not Included), as shown in the image.

- The Mitchell Slider is successfully mounted on the Mitchell stand (Not Included).

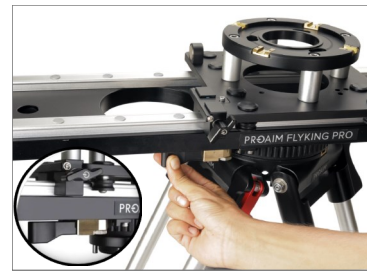

- After mounting the slider, re-insert the castle ring from the bottom of the slider.
- Now, tighten the castle ring using a castle wrench.

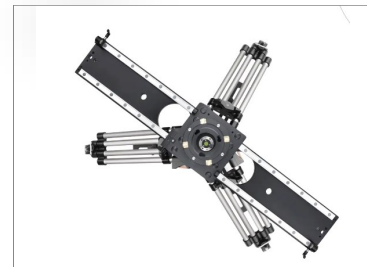

- The castle ring has been properly attached to the slider, ensuring a secure attachment between the slider and the Mitchell stand (Not Included).

- The lever of the Mitchell Slider can be used to move it in a panning move per your requirement.

NOTE: It provides a full 360° sweeping pan with an easy-to-use lever that safely locks the carriage in your desired position.

- Loosen the magnetic stoppers and move them to the desired position.

NOTE: Adjust the rail length per your shooting requirement by setting the magnetic stoppers at the desired length.

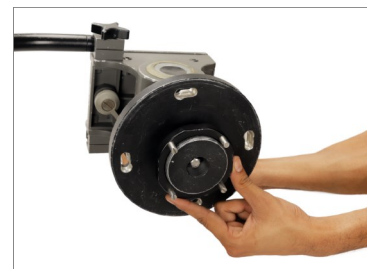

- Position the magnetic stopper anywhere on the rail and secure the position by flipping the knob.

NOTE: The slider is equipped with adjustable magnetic stoppers that minimize the jarring caused by sudden slide stops during gliding shots, ensuring a smooth, jerk-free finish.

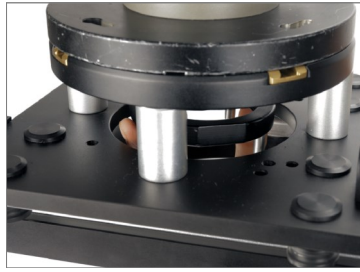

- Loosen and remove the castle ring of the Fluid head (**Not Included**).

- Mount the Fluid head (**Not Included**) on the Mitchell slider.

- After mounting the Mitchell fluid head (**Not Included**), tighten the castle ring from the bottom to secure the Fluid head.

- Press the knob of the Fluid head and release the top plate.

- Attach the top plate of the fluid head with the Camera (**Not Included**) by matching their threads and secure them using a screwdriver.

- Slide the Camera (**Not Included**) onto the Fluid head.

- After mounting the Camera, press the locking lever of the fluid head to lock the attachment.

- Loosen the knob of the Mitchell plate of the slider and move the plate per your requirement.

- You can firmly lock the position of the Mitchell plate using the knob, as shown in the image.

NOTE: With a minimum working height of 13cm, the slider lets users capture shots from a relatively lower angle.

NOTE: It delivers stunning shots in over-slung and under-slung camera configurations with a Mitchell base and top, giving you versatile camera head and tripod mounting options.

Features: The Slider features a stronger-than-ever braking system with adjustable magnetic stoppers that minimize the jarring caused by sudden slide stops during gliding shots, ensuring a smooth, jerk-free finish.

- The Slider is ready to use.

YOUR PROAIM FLYKING PRO 4FT MITCHELL VIDEO CAMERA SLIDER ALL DRESSED UP AND READY TO GO!

(SHOWN WITH OPTIONAL ACCESSORIES)

Warranty: We offer one year warranty for our products from date of purchase. Within this period of time, we will repair it without charge for labor or parts.
