Folding Wheel Base Stand Setup

- Take out the folding wheel and spread it on floor and open the legs (as per your requirement) of wheels with the help of provided Study Locking knob.

- After spreading the foldable wheel base stand on the floor, secure the stand by pressing down on the foot brake to secure it properly.

Note: The portable stand comes equipped with 3" locking castor wheels that make it a lot easier to move around the studio with lights and other gears. And each wheel has a customized footbrake that locks and steadies the stand.

- Position the height of the Stand by loosening all adjustment Locking knobs, Extend the length of the stand up to the desired height and re-tighten the knobs securely as shown in the image.

Feature: It is a 3-section stand with a stable base and legs that fold up with a quick pull of a lever, making it super easy to carry around at set and on-location. The stand rises to a maximum height of 103.9 inch and has built-in solid locks to steady the stand's height.

NOTE: It is a solid stand on wheels that is perfect to use with all major photography equipment like lights, reflectors, umbrellas, soft boxes, backgrounds, etc. It has a 5/8" baby pin at the top for mounting different photography equipment like lights, reflectors, soft boxes, or even a Camera Stabilizer System & Gimbals with their support accessories.
