## Gravita Tripod Stand Setup

- Properly spread and open all the legs of the tripod stand and attach rubber tripod shoes to the feet of the stand.

- Then, pull the rubber tripod shoe grip & secure it. Follow the same process to attach the remaining rubber tripod shoes.

**NOTE:** It has rubber feet equipped with twin spikes, suited for indoor and outdoor use, as well as any terrain.

- Loosen all the three knobs of the dual stage tripod and you can adjust height according to your requirement by sliding.

- After adjusting the height, re-tighten the knobs and properly secure it.

- To adjust the height of the tripod, loosen all the three adjustment knobs. You can adjust the tripod to the desired height and then re-tighten the knobs securely.

**NOTE:** The tripod legs are independently adjustable in length and extend from 17" to 61".

- The spreader can be adjusted according to the requirement by loosening the knob of the mid level spreader. Then secure the spreader tightly with the help of the knob.

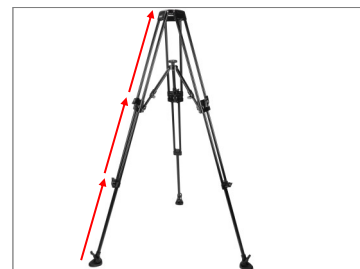

**NOTE:** It uses a mid-level spreader for significant control over the tripod footprint.

- You can also collapse the spreader by loosening the center knob on the mid-level spreader.

**NOTE:** This two-stage aluminum tripod has 3-section dual tandem legs that offer excellent torsional rigidity along with easy height adjustment.

- Remove the knob of the 75mm Bowl Fluid Head (Not Included) and mount it on the Tripod Stand.

- Then, properly tighten and secure the knob of the Fluid Head (Not Included) from the bottom.

## Fluid Head Setup

- Loosen the fluid head (**Not Included**) knob and then remove the plate.

- Attach the camera plate to the bottom of the camera (**Not Included**), then secure it with the help of a screwdriver, as shown in the image.

- Pull the knob of the fluid head, then slide and mount the camera (**Not Included**), same as shown in image.

- Gravita Tripod Stand Setup is ready to use.
