Headrest Car Mount Setup

- Loosen the clamps attached at the bottom of the headrest car mount by loosening the bolts slightly with the help of a 3/16mm Allen key.

NOTE: Headrest Car Mount is designed to mount film equipment & accessories inside the cars.

- Loosen the four bolts and slide the clamp on the headrest car mount accordingly.

- While loosening the bolts, the clamp has to be loosened a bit so that the backseat rod of the vehicle can be inserted, as shown in the image.

NOTE: Clamp the headrest behind the Car Seats with given slots, slide horizontally, and put it in the ideal position. And these slots are secured with bolts to hold heavier setups.

- Insert the vehicle's backseat rod into the clamp and attach the backseat back in place.

- After inserting the headrest car mount, properly secure the bolts with the help of a 3/16mm Allen key.

- The headrest car mount is properly fixed with the rear seat of the vehicle, as shown in the image.

NOTE: It is a complete & universal backseat car mounting solution that works with almost every car & vehicle.

- Insert the LCD arm (**Not included**) into the headrest car mount by matching several threads to secure the arm by rotating it properly.

NOTE: Headrest car mount has multiple 1/4"-20 and 3/8"-16 threads & holes to rig various equipment like Isolator arms, Monitors, Video Recorders, Wireless, Led Lights, etc.

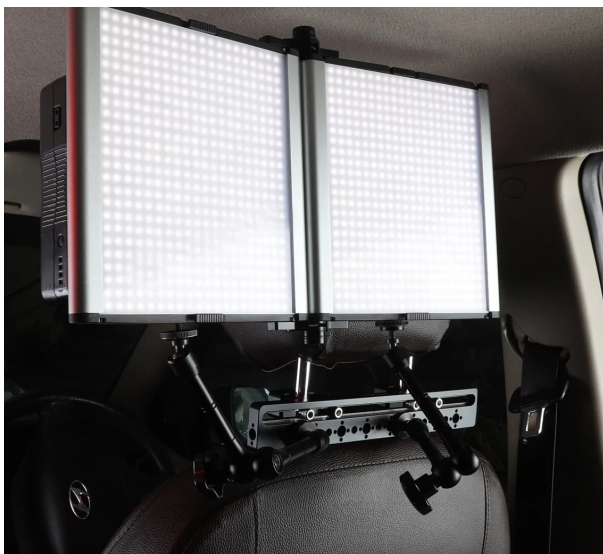

- Attach LCD (**Not Included**) to arm through the threads and then secure it properly.

- It is entirely modular & adjustable. You just need to set your LCD behind the front seat in any desired position and focus only on your creative cinematic shots.

YOUR PROAIM HEADREST CAR MOUNT FOR CAMERAS AND CAMCORDERS ALL DRESSED UP AND READY TO GO!
