## Boom Rig Setup

- Mount any one size of the offset euro adapter on bazooka. Then, tighten it with the provided knob.
- Insert any of the 3 aluminum tubes into the offset adapter. Then tighten the knob accurately to secure the tube.
- Cover one end of the tube with a safety cap. On the other end, attach the tube connector.
- Lock the tube connector using the provided pins for better safety and security. Then connect another aluminum tube with the previous tube via tube connector.
- Mount any size of offset bowl adapter bracket (**Not Included**) onto the tube and secure it correctly via the provided knob.

**NOTE:** You can either fix the threaded euro adapter onto the tube for mounting any Euro-base setup or cover the tube with a safety cap if no further configuration is required on top.

**NOTE:** You can achieve a wide range of camera positions by combining straight or offset euro adapters and aluminum tubes. The whole rig can be mounted quickly and easily in different places on various gears, such as jib arms, dollies or cranes.

## **YOUR PROAIM HIGH-LOW BOOM RIG ALL DRESSED UP AND READY TO GO!**

**(SHOWN WITH OPTIONAL ACCESSORIES)**

**Warranty:** We offer one year warranty for our products from date of purchase. Within this period of time, we will repair it without charge for labor or parts.
