Quantum Shoulder Rig Setup

- Loosen the knob of the base plate and insert the 200mm long rod.

- Then insert the second 200mm long rod and tighten it properly with the knob, as shown in the image.

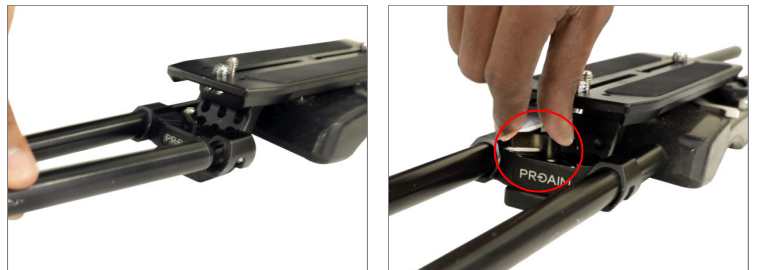

- Loosen the knob on the other side of the base plate and insert the 300mm long rod.

- Then insert the second 300mm long rod and tighten the knob properly, as shown in the image.

NOTE: There are 15mm(dia) rods on the front and back to accommodate more camera accessories.

NOTE: It has dual slots that allows quick positioning of your camera & camera accessories.

- Now attach the handle and tighten the ratchet knob properly.

- Then attach the second handle and tighten it properly.

- By pressing the adjustment knob, the angle of the handle can be changed according to your requirement, as shown in the image.

NOTE: It allows your camera set up to sit comfortably on your shoulders by eliminating the discomfort caused by the camera's weight on your shoulder during shooting.

- Push the black pin upward by pressing the safety pin of the shoulder base plate.

- Then quickly slide the baseplate.

NOTE: This Universal Camera Baseplate allows quick attaching and detaching of your camera setup fastened by Safety Pins and Ratchet Knobs.

- Mount the camera (Not-Included) on the shoulder pad and tighten it properly with the help of a screwdriver.

NOTE: The shoulder plate has 1/4"-20 and 3/8"-16 threaded holes for storing additional screws.

- Then set the camera position and lock it properly by pushing the safety pin.

NOTE: Quantum Shoulder Rig also supports RED (DSMC2), Arri, Sony, Canon, Panasonic, Blackmagic (Ursa Mini), and many other camera models with interchangeable lenses.

YOUR PROAIM QUANTUM SHOULDER RIG W VCT MOUNT ALL DRESSED UP AND READY TO GO!
