FUNCTION

Hostess Tray Kit Setup

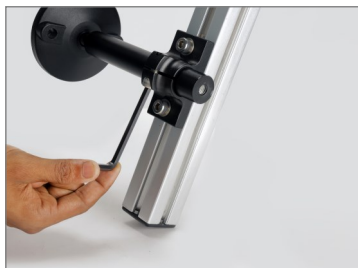

- Using the Allen key, loosen the clamp bolt in the Feet Holder Extruded Rail.

- Insert the adjustable supportive feet in the clamp.

- Re-tighten the bolt using to Allen key to secure the feet.
- Loosen the bolt to slide up and down.

- The Feet Holder Extruded rail clamp can slide up or down per your requirement.

- Loosen the knob of the Centre Support Extruded Rail.

- Remove the bolt from the rail, as shown in the image.

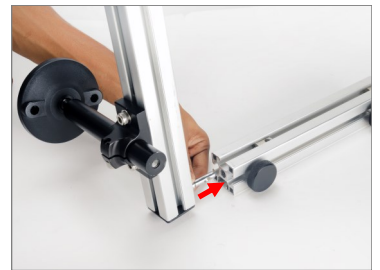

- Repeat the same procedure to remove the bolt from the other side of the Rail.

- Slide the bolt down the channel of the Feet Holder Extruded Rail.

- Now, insert the bolt in the Centre Extruded Rail as shown in the image.

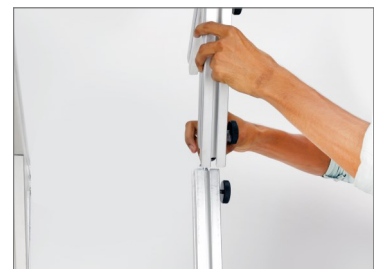

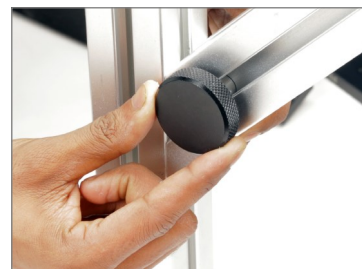

- Tighten the bolt on the Centre Extruded Rail.

- Slide the Side Support Extruded Rail down the Platform Rail, as shown in the image.

- Now, tighten the knob and slide the platform rail down the Feet Holder Extruded Rail.

- Tighten the knob shown in the image to secure the Rails together.

- Loosen the knob of the Centre Support Extruded Rail.

- Attach the Centre support rail to the Feet Holder Extruded Rail and re-tighten the knob.

- Remove the rubber caps from the Platform Extruded Rails.

NOTE: Rubber supports are attached at the ends to distribute the camera weight and evenly stabilize the setup.

- The Platform Rails are ready to be attached to the Centre Support Extruded Rail.

- After attaching the Centre Support Extruded Rail, tighten the knobs to secure it properly.

- The image shows how all the attached Extruded Rails will look like.

- Attach the L-Shaped door hooks to the Feet Holder Extruded Rail.

- Tighten the Hooks using the Allen key.

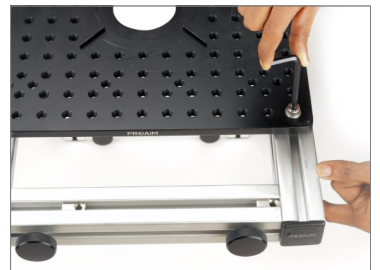

- The hook can slide forward or backward by loosening its bolt.

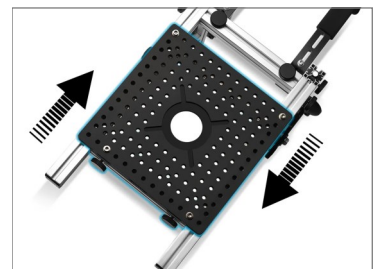

- Attach the Cheese Plate to the Platform Extruded Rail and insert & tighten its bolt using the Allen key, as shown in the image.

Feature: It features a 14 x 14" aluminum cheese plate with a Mitchell mount that allows firm mounting for smooth shots.

- Tighten all the bolts to secure the Cheese Plate.

Feature: The rods facilitate height adjustment, and the cheese plate can be easily positioned with its easy back & forth movement.

- The Cheese plate is appropriately mounted on the rail, as shown in the image.

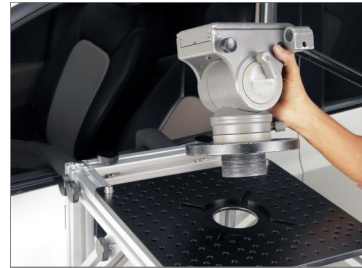

- Mount the L-Shaped hooks to the car door.
Feature: Robustly built L-shaped door hooks attach to the car door, providing excellent stability to the tray kit.

- Loosen and remove the Castle Ring of the Fluid Head **(Not Included)**.

- Mount the Fluid Head **(Not Included)** on the Mitchell mount of the Cheese plate.

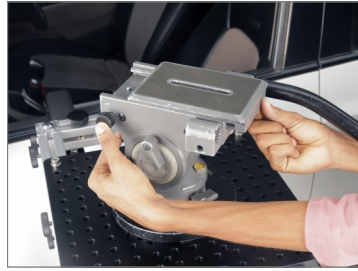

- Secure the Fluid Head **(Not Included)** by tightening the Castle Ring from the bottom, as shown in the image.

- Unlock the locking lever of the Fluid Head.

- Push the knob of the fluid head to remove its top plate.

- Attach the top plate with the Camera (Not Included) and tighten them using the Allen key.

- Slide the plate to the Fluid Head (Not Included) and lock its lever.

- The camera (Not Included) is safely mounted, as shown in the image.

Feature: The Tray kit is designed to mount film and video cameras to the side doors of a car for profile shots through the window or point-of-view shots out the window.

- Wrap the safety belt around the channels for a more secure setup.

Feature: Its extruded rods spread across the model, guaranteeing maximum strength and perfect connection via the adjustable supportive feet and safety belts.

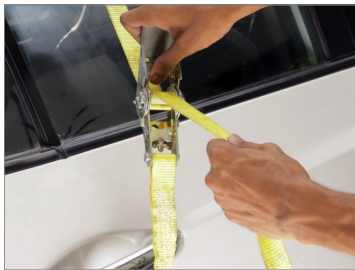

- Connect the safety cable to the car for better attachment, as shown in the image.

- Tighten the safety belt to fully secure it.
- Your setup is ready to use!

Feature: The Smart Side Mount Hostess Tray Kit is designed to save you time and deliver hassle-free car shots while providing stability and security.

YOUR PROAIM SMART SIDE CAMERA CAR MOUNT HOSTESS TRAY KIT ALL DRESSED UP AND READY TO GO!
