SnapRig Super Clamp with 5/8" Stud Setup

- Loosen the knob of Super clamp with 5/8" Stud and open it as shown in the image.

Note: The Clamp is equipped with a 5/8" threaded stud, a 1/4-20, and a 3/8"-16 female threads to securely mount your gear.

- Attach the Super clamp with 5/8" Stud to the rod, (**Not Included**) then secure it.

Note: Its jaws expand up to 2.36," and it easily fastens onto speed rails, scaffold poles, or even square tubes. Clamp can be used from both sides.

Feature: Furthermore, it features anti-slip rubber pads within the jaws that prevent your gear from accidentally slipping off.

- Tighten the threaded knob of Super clamp then mount the light (**Not Included**) onto the clamp.

NOTE: This clamp with socket features articulating jaws that can firmly grip to any irregularly shaped object.

- Tighten the ratchet knob of the light (**Not Included**) then make movements as per your requirement as shown in the image.

NOTE: Super Clamp offers a smart solution for securing your equipment, like cameras, monitors, lights, or other add-ons. on unconventionally-shaped platforms with utmost ease. It take payload of up to 20 kg/44 lb in one go, making no concession on the stability of your setup.
