DSLM Camera Cage Setup

- Remove both the Allen bolts on the top plate with a 3/16mm Allen key.

- Then Align the top plate with the camera cage and secure it properly with the help of a 3/16mm Allen Key by inserting both the Allen bolts on the top plate.

- Remove both the Allen bolts of the camera plate with the help of a 3/16mm Allen key and attach it to the bottom part of the camera cage.

- Then secure it with the help of a 3/16mm allen key.

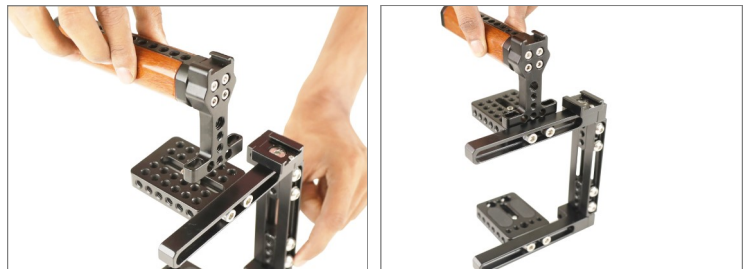

NOTE: You can adjust both the top and base plates to your requirements by loosening the bolt and sliding it in.

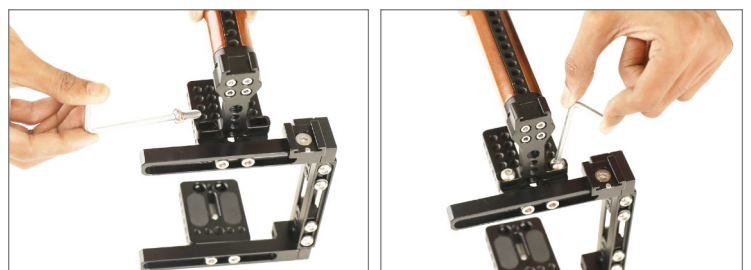

Top Handle

- Place the top handle above the top plate.

NOTE: The provided multiple threads of the top plate allow you to mount the top handle anywhere according to your requirement.

- After placing the top handle on the top plate, match the bolt with the side threads of the handle, insert the button head, and tight it with the help of a 4mm Allen key.

Side Handle

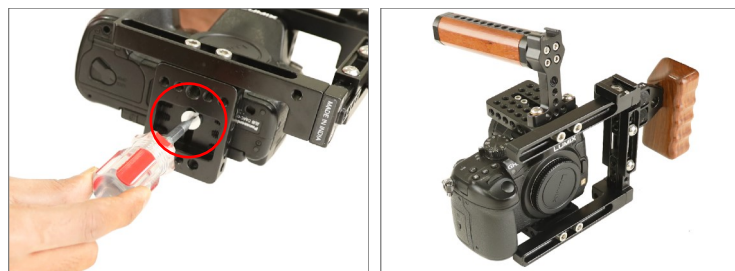

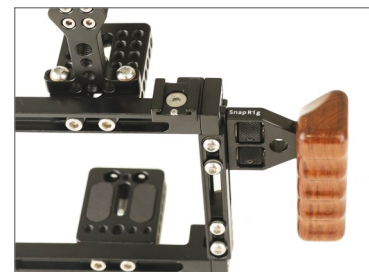

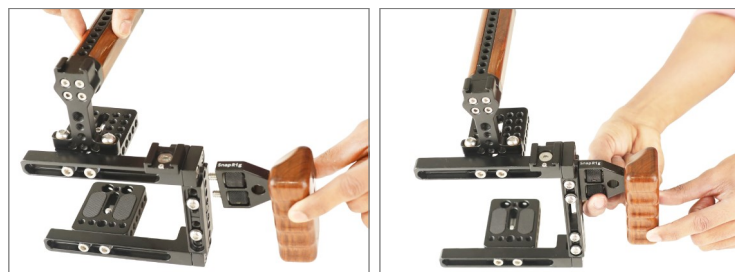

- Match the wooden side handle with the side thread of the camera cage and insert the side handle and tighten it properly with its knob.

NOTE: You can hold the handle anywhere on the provided multiple threads of the Camera Cage according to your requirement.

- The wooden side handle is now properly tight.

- Attach the Camera (Not Included) into the Camera cage properly by sliding it onto the shoe mount on the top plate.

- Match the provided screw hole on the bottom of the camera plate with the camera (Not Included) hole and screw it tightly with the help of a screwdriver.

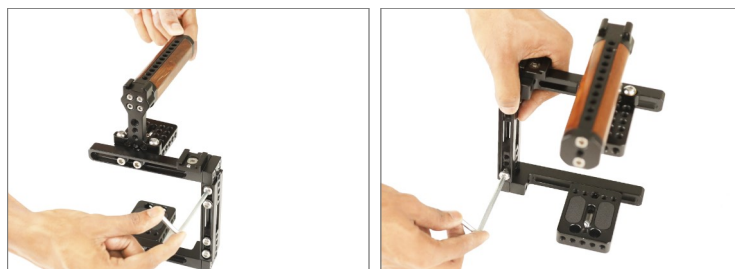

Interchange Slide Bars

- Loosen the knob of the wooden side handle and remove the handle.

- Then remove the button head from both sides of the camera cage with the help of a 4mm Allen key.

- The button heads have been properly removed from both sides of the camera cage and remove the camera cage's existing side sliding bar.

NOTE: The existing slide bar is comparatively larger than the given slide bar; you can use them according to your size requirements.

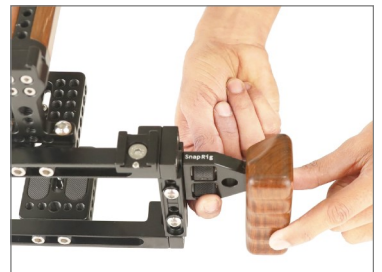

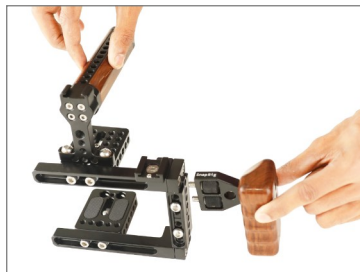

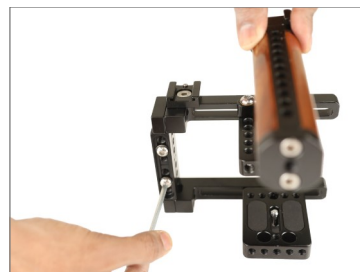

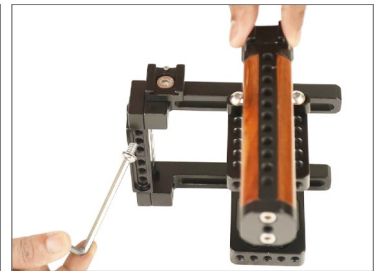

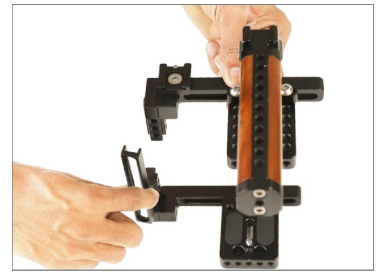

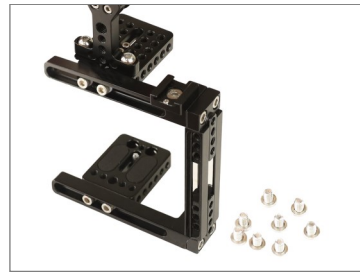

- Insert the slide bars from both sides by sliding them on the camera cage.

- By aligning the slide bars properly, insert the Allen bolt matching the thread of the sliding bars.

- Tighten the button head properly (front and back) using a 4mm Allen key.

- Match the wooden side handle with the side thread of the camera cage and insert the wooden side handle and tighten it properly with its knob.

- Adjust the height of the camera cage according to your camera's height.
