SnapRig Universal Clamp with 5/8" Socket Setup

- Loosen the knob of Universal clamp with 5/8" Socket and open it as shown in the image.

Note: The Clamp is equipped with one 5/8" socket, one 1/4"-20 and one 3/8"-16 female threaded hole, making it possible to mount multiple equipment in one clamp.

- Universal clamp can be mounted from the bottom side, thread is also provided in the bottom for this loosen the knob then attach the universal clamp with 5/8" Socket to the rod, **(Not Included)** then secure it.

NOTE: The Clamp's jaws expand up to 2.36" and easily grip gear weighing up to 20kg/44lb, offering secure rigging with speed rail, scaffold poles, or even square tubes.

- Tighten the threaded knob of Universal clamp then mount the 5/8" baby pin **(Not Included)** onto the clamp matching the thread.

Feature: This clamp with socket features articulating jaws that can grip any irregularly odd-shaped object firmly.

- Mount the light **(Not Included)** onto the baby pin then tighten the ratchet knob of the light **(Not Included)** then make movements as per your requirement as shown in the image.

Feature: The peak-and-valley design of the jaw allows for multiple points of contact, assuring a solid grasp every time, whether mounted on round, square, or flat objects.

NOTE: Universal Clamp with a 5/8" Socket is a smart solution for rigging your gear, such as a camera, monitor, light, or other accessories, onto unconventionally-shaped platforms.
