Track Setup

- Remove the outboard set of screws from the sections using a wrench, slide extension section into each end to complete a 12' run, install and tighten the screws to secure.
- Attach the Track Supports, and Track Riser Supports to the track.
- Note:** Track Supports offers rigidity and prevent dolly from running off the rails.
- The track is now ready to use.

Swift Dolly Setup

- Remove the lock knob from the 27" central section and connect the 32" dolly rods to give it a triangular shape.
- Attach the 27" rod to the wheelset and tighten the knob to secure.
- Loosen the lock knob from the 32" rods of the dolly section, connect with 27" of central area, and tighten the knob to secure.
- Attach the 14" central support system rod to the base and tighten the screws to secure it.

- Attach a 15" camera mounting post to the base and tighten the screws as shown in the images.

- Place the dolly on the tracks as shown in the image.

**YOUR PROAIM SWIFT CAMERA DOLLY SYSTEM WITH 12FT STRAIGHT TRACK
ALL DRESSED UP AND READY TO GO!**
