Universal Backseat Setup

- Attach the Universal headrest mount on the back seat of the vehicle, as shown in the image.

- After attaching the headrest, insert a bolt to secure it properly.

- After inserting the bolt, properly secure the headrest on the backseat with the help of the Allen key, and same step is to be followed on the other side as well, as shown in the image.

- Insert two Standoff pins into the Universal headrest mount by matching them with the threads of the Universal headrest, as shown in the image.

- Attach the round cheese plate properly by matching it with the threads of two standoff pins, and then insert the allen bolt.

- Tighten the Allen bolt with the help of the Allen key, and then insert the rigging rod clamp into the round cheese plate by matching it with the threads of the round cheese plate.

- On the other side, follow the same procedure as for the rigging rod clamp.

Note: Easily attach the headrest mount with cheese plate which has multiple threads & holes for quick & easy mounting.

- Insert 2 x Rigging Rod (180mm) into the Rigging rod clamp and tighten them with the help of the allen key.

- Now insert the 360° Houdini Rod Clamp into the Rigging Rod (180mm) and secure it properly with the help of the Allen key and then insert the Rigging Rod (250mm) into it.

- After inserting the Rigging rod (250mm), tighten it properly with the help of the Allen key.

Note: It is entirely modular & adjustable. You just need to set your control device, monitor, LCD, wheels, and joysticks behind the front seat in any desired position and focus only on your creative cinematic shots.
