

EDIBLES PLANTING & HARVESTING CALENDAR

Knowing when to plant and when vegetables can be harvested, is an important element in planning and planting your vegetable garden. Consider planting at different times, to ensure a consistent supply of your most desired vegetables, or choose varieties that ripen at slightly different times to encourage a continuous supply. We encourage you to plant what you like to eat, but to also explore a few new varieties this year! When in doubt, an Al's Expert would be happy to help you plan your perfect vegetable garden.

Time to Plant 

Time to Harvest 

	Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec
Artichoke												
Basil												
Beans
