Craft Chocolate Makers and Pâtissiers **COLLECTION 2022 - 2023** 

### OUR PHILOSOPHY AND EVOLUTION

Since its inception in 2014, La Folie has championed the magnificence of real chocolate in its art of modern European pastry and chocolate-making. Over the years, Chef Sanjana Patel and her team of artisans have combined delectable Grand Cru chocolate from across the globe with French savoire-faire. The result is a smorgasbord of signature and redefined classical creations exploding with flavours, tantalising textures and rare ingredients that a chocoholic can only dream of.

### THE REAL CHOCOLATE MAKERS

In its pursuit to showcase the most authentic expression of real chocolate. La Folie has embarked on a journey to create chocolate from its origin - the bean. This heralds the bestselling chocolatier's evolution into an expert bean-to-bar chocolate maker.

La Folie's bean-to-bar process is tailor-made to coax flavours from the finest, single-origin cacao ethically sourced from around the world. Cradled with care, the organic beans are handcrafted into small batch chocolate at La Folie's micro-factory in Mahalaxmi, Mumbai. Paired with natural ingredients sourced locally, each exceptionally delicious creation pays homage to the cacao's origin and its unique character. La Folie has also introduced Factory Tours to provide an in-depth understanding of the bean-to-bar chocolate making process

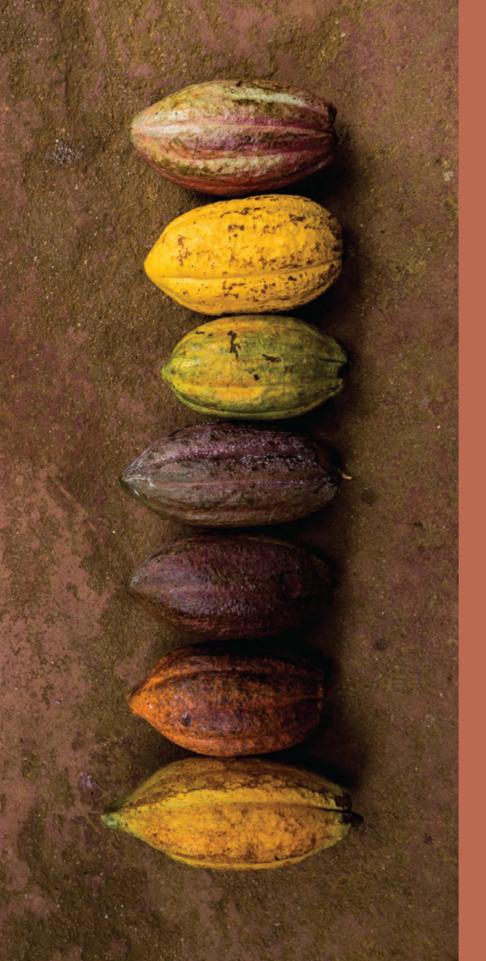

### ABOUT OUR CHEF | SANJANA PATEL

Sanjana Patel shares a special relationship with chocolate- one of reverence, love, and discovery. As the Creative Director and Executive Chef at La Folie, she showcases her passion for chocolate inn a plethora of original, haute couture-style renditions of French delicacies. With knowledge and expertise refined for over two decades, today Sanjana is a revolutionary force in the art of modern pastry and chocolate-making.

In her latest pursuit to discover an authentic expression of real chocolate, Sanjana has transformed from a chocolatier to a bean-to-bar chocolate maker. Her quest for the finest-origin beans has led her to cacao farms across four continents. A staunch follower of ethical trade, Sanjana's creations brim with exuberant, natural flavours and her intense desire to share the magnificence of real chocolate.

At heart, she is a passionate artist. The plate is her canvas. She paints it with flavour-strokes honned at the reputed Ecolé Grégoire Ferrandi in Paris and then, as an apprentice with Pierre Hermé. her résumé includes stints with global heavyweights like Patrick Roger, Olivier Bajard, and Chefs Cristophe Michalik and Alain Ducasse (at Hotel Plaza Athénée in the Dorchhester Collection).

With her immense talent, Sanjana has attained national and global accolades, including the titles of 'India's Pastry Queen' (2015) and the '4th best Pastry Chef for 2016' and the World Pastry Queen Competition. But rather than resting on her laurels, you'll always findSanjana engrossed in pushing the envelope of creativity and planning her next avant-garde creation

### OUR VALUES

### **Finest Origins**

We believe in providing a variety of origins to our customers, each of which possesses unique taste and flavour profiles specific to its region. We source from amongst the Top 50 cacao farms and co-operatives around the worlds who have been recognised and awarded by the 'Cocoa of Excellence Board' and renowned craft chocolate makers.

### All Natural

We strive to make 'Real Chocolate' using all natural ingredients and organic cacao to retain the uniqueness and purity of taste that each single origin cacao provides. For our inclusion bars we pair and combine other natural ingredients such as organic cane sugar, black jaggery, natural freeze dried fruits, nuts and other herbs and spices sourced locally.

### Small Batch

In our micro chocolate factory in Mumbai, we use traditional European artisanal techniques to handcraft our bean to bar chocolate in small batches. The custom designed machinery gives a distinct texture refinement, resulting in high quality chocolate that is packed with flavour and has smooth texture.

Each of our products
truly encapsulates
the story of
discovery of ethically
sourced, fine
flavoured and single
origin cacao.

At our small-batch chocolate factory in Mumbai, we pair traditional expertise with modern innovation and technology.

With sustainability at its core, our cacao sourcing process ensures fair prices for cacao farmers.

In turn, we get to handpick the very best cacao - Real good beans.

Real good chocolate.

The result is an unparalleled range of chocolate creations that is divine and truly a sensorial experience of the finest origins using 'all natural ingredients.'
