

Certificate of Analysis

Albumin Standard, 2mg/ml

Cat No : A1100

Lot No : 01262416

TEST	Specification	Result
Appearance	Clear to slightly yellow solution	PASS
Protease	None	None
Assay :	2.0 + 0.03 mg/ml	2.0 mg/ml

ADDITIONAL INFORMATION:

The Bovine Serum Albumin (albumin purified from bovine serum) used in this product was collected from US-origin animals under 30 months of age in USDA licensed facilities. Ruminant materials used in the manufacture of this product are not originated from BSE related herds. During the collection process appropriate precautions were taken not to contaminate the serum with specified risk material (SRM) as defined by the USDA. The animals received ante- and post- mortem inspections under a veterinarian's supervision and were apparently free from infectious and contagious diseases. The Bovine Serum Albumin was subjected to heat treatment at a temperature of at least 65°C for a period of at least three hours and subjected to a pH of less than or equal to 5 for no less than three hours during our raw material supplier's manufacturing process.

NIST Traceable BSA Standard used for testing : # 927f
