UGREEN	PREFACE Thank you for purchasing the UGREEN products. For optimum operation, please read this manual carefully before use.	PRODUCT OVERVIEW Earbuds Charging Case	GET READY FOR FIRST USE Ensure to remove the insulating film of both earbuds when first use, and then fully charge the earbuds and charging case by a standard 5V/1A USB adapter.	A SMALL THING BUT A BIG DEAL HiTune Earbuds come with three sizes of ear tips. The medium size comes already attached, and small and large sizes are in the packaging box. For a comfortable fit and optimal audio performance, please select the best-sized ear tips and make a	POWER ON/OFF Auto-On: Take out the earbuds from the charging case, blue LED indicator will light up for 1 second, earbuds power on automatically. Auto-Off: Place the earbuds into the charging case, white LED indicator will light up

BLUETOOTH PAIRING & CONNECTION TWS Mode TWS Connection Between Left and Right Earbuds Taking out both earbuds from the charging case, LED indicators flash blue, and the connection between the left and right earbuds will be established automatically. Bluetooth Pairing with Phone Then earbuds enter pairing mode, LED indicator of the master earbud (left) will flash blue and white alternately, and indicator of the slave earbud (right) will turn off. Open Bluetooth settings on your phone and select "UGREEN HiTune" via the Devices list of your phone. Successful Connection	Mono Mode Both left and right earbuds can be used individually. Please take out only one earbud from the charging case to use Mono Mode, and refer to the steps of TWS Mode while pairing with your phone. Using left earbud: search "UGREEN HiTune" in the Bluetooth Devices list and connect. Using right earbud: search "UGREEN HiTune - R" in the Bluetooth Devices list and connect. Note: Note: If you power on the left earbud while using right earbud individually, the right earbud will be disconnected, and left and right earbuds will automatically reconnect. Then, the master earbud (left) will connect with your phone and enter	FACTORY RESET If one or both of your HiTune earbuds become completely unresponsive or can not pair or connect successfully, please try the following factory reset steps. • Before starting this process remember to delete/forget the "UGREEN HiTune" pairing in the Bluetooth menu on your smartphone. • Place your earbuds into the charging case and make sure they are being charged, then long-press both earbuds for 8 seconds until LED indicators flash blue and white 3 times. Note: Resetting the earbuds clears all paired devices as well as the TWS connection between left and right earbuds. When first use after factory reset you'll need to	Music Playback Music Play/Pause Double Tap: Next Track Triple Tap: Previous Track Making Calls Single Tap: Answer/End a Call	 OTHER FUNCTIONS Manual-On: When earbuds are OFF, long-press the Touchpad for 2 seconds to manually turn them on. Manual-Off: When earbuds are ON, long-press the Touchpad for 6 seconds to manually turn them off. During Pairing Mode with phone, if the earbuds are not connected to any device within 5 minutes, they will automatically turn off. While using the HiTune earbuds, if you turn off the Bluetooth of phone or the devices exceed the effective Bluetooth range (10m), you'll hear a Bluetooth disconnect tone "Ding". If the earbuds are not connected to any device within 5 minutes, they will automatically turn off. 	CHARGING CASE BATTERY LEVEL & RECHARGE Charge the case Please charge with a standard or certified 5V/1A USB adapter and the enclosed USB- charging cable. Low battery signs Left indicator keeps flashing when battery low. Please recharge the case in time.	
The voice prompts of "Dong" in the master earbud (left) means a successful connection. Then indicators turn off.	prompts of "Dong" in the master earbud (left) means a successful TWS mode. • If you power on the right earbud while using left earbud individually, they will		C Long-press the Touchpad for 2 seconds: Reject a call	EARBUDS BATTERY LEVEL & CHARGING	EARBUDS VOICE PROMPTS STATUS

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. FCC RADIATION EXPOSURE STATEMENT This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference or radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: —Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
