Lismore

摩尔石系列

Lismore is trying to use particular lines to achieve their own changes.
In order to make the red wine taste better, in order to make the tea drink better,
we may spend money to find a satisfactory atmosphere.

May be in a bar, or may be in friend's home.

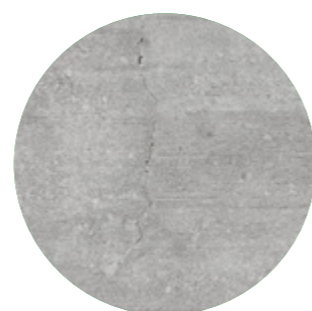

The surrounding colors, lines, light, taste and sound, will affect our feelings.

The decorative lines are quite similar to tree pattern,
expressing the immemorial and pure temperament as well as fantastic sight.

The image features a 3x3 grid of nine square panels, each displaying a different texture and shade of dark grey wood grain. The panels are separated by thin white lines. In the center panel, the word "Grey" is written in a white, elegant cursive font.
