## A mini Christmas! tender leaf® printables

Here's a selection of decorations you can make to give your Dolls House a festive feel this Christmas! Simply colour them in, then ask an adult to help you carefully cut along the black lines. You can then tack or stick your decorations in your dolls house! To make the paper chain, see below:

> **Mini Paperchains** Once coloured, cut out each section, then glue the ends together to make your first loop. Repeat but thread through original loop. Continue until all have been used up.
