This product is guaranteed by Covrt Project in the European Economic Area for 24 months from the date of purchase against all manufacturing defects as determined by our technical services department. Any part found to be defective in materials or workmanship will be at our discretion replaced or repaired free of charge by Covrt Project. Such replacement or repair of your product will not reset or extend the original guarantee period. If you discover a defect with your glasses, contact us using one of the methods provided. If we ask you to send your glasses to us or your chosen Covrt Project retailer, you will need to pay any applicable delivery costs. The product will be examined and provided the defect falls under this guarantee, replaced or repaired free of charge. In your capacity as a consumer, you may have legal rights under applicable national legislation governing the sale of consumer goods. This guarantee is provided in addition to and not in substitution of such rights.

THE WARRANTY DOES NOT COVER:

* Damage resulting from accidents, mishandling or abusive use (including knocks, dents, crushing, scratches and other cosmetic or functional damage), unauthorised alteration, manipulation or repair, as well as the consequences of the normal wear and ageing of frames (including scratched lenses).

* Damage arising after the first 24 months from the date of purchase.

* Damage that arises because you have failed to follow the care instructions.

Covrt Project is a trading name of Covrt Project Limited, a limited company registered in England under company number 11986441.

Registered office address 20 - 22 Wenlock Road, London, N1 7GU

CARE INSTRUCTIONS

CLEANING: To ensure that your Covrt Project Eyewear preserve its initial appearance, it should be washed regularly, with slightly soapy water, rinsed with clean water and wiped dry with the Covrt Project cleaning cloth. Avoid any contact of your Covrt Project Eyewear with mercury or strong solvent based products like acetone or cleaning fluids. These products damage the finish of your Covrt Project Eyewear.

STORAGE: For daily protection, use the case and cleaning cloth, provided at the time of purchase. When not worn for a long time, wash and dry your Covrt Project Eyewear as indicated and keep it in a clean and dry place at a temperature below 50°C (120°F).

PRESERVATION: Keep your Covrt Project Eyewear in your original Covrt Project soft or hard case. Seek the help of Covrt Project or your chosen Covrt Project retailer, for any maintenance or repairs.

OBSOLESCENCE: Replace your Covrt Project Eyewear if broken or after 5 years.

SPARE PARTS: Covrt Project Eyewear is not provided with any spare parts, we recommend seeking the help of Covrt Project or your chosen Covrt Project retailer for any repairs or maintenance.

SUNGLASSES

Covrt Project sunglasses complies with the essential safety requirements set by European directive [EU] 2016/425 and subsequent revisions and meet the EN ISO 12312-1 standard.

Sunglasses or protective filters protect the eyes from the harmful and unpleasant effects of the sun's rays. The lenses fitted are high impact resistant. However, they are not for use as eye protection against mechanical impacts hazards, during which the sunglasses could break, causing injury to the face and eyes. The frames are made of materials to guarantee lightness, comfort and mechanical sturdiness.

WARNING: Please refer to the table below. Filters comply with this standard are not suitable for direct observation of the sun (e.g. during eclipses) and not for protection against artificial light sources (e.g. solarium). Damage to the eyes can occur due to exposure to sunlight (other than during observation of the sun). Sunglare filters with luminous transmittance of less than 75% but greater than 8% are not suitable for driving in twilight or at night. Photochromic sunglare filters are considered suitable for use in twilight or at night if they reach a luminous transmittance of more than 75%. Filters not meeting the requirement for road use and driving are clearly declared as:

NOT SUITABLE FOR DRIVING AND ROAD USE.**LIMITATIONS OF USE**

FILTER CAT	DESCRIPTION		USAGE
4	Very dark special purpose sunglasses, very high sunglare reduction	 ISO 7000-2951	Very high protection against extreme sunglare, e.g. at sea, over snowfields, on high mountains, or in desert. "Not suitable for driving and road use"
3	General purpose sunglasses	 ISO 7000-2950	High protection against sunglare
2		 ISO 7000-2949	Good protection against sunglare
1	Light tint sunglasses	 ISO 7000-2948	Limited protection against sunglare
0		 ISO 7000-2947	Very limited reduction against sunglare

AUTHENTICITY

Each component of a Covrt Project frame is exclusive to Covrt Project, and engraved with Covrt Project marks to guarantee authenticity. The Covrt Project brand mark, the product code and box sizing of the frame can be found on every pair of Covrt Project glasses – either on the inside or underside of the temple(s) and/or the frame. Covrt Project eyewear meets the most stringent manufacturing standards worthy of the Covrt Project brand and bear the Covrt Project brand marks. Your Covrt Project eyewear are delivered with a Covrt Project case and cleaning cloth bearing the Covrt Project logo.
