Creating Custom Label Templates (in Microsoft Word)

Step 1 : Run Microsoft Word and open a new document

Step 2 : Conversion of Scale

From File menu go to Options

Select Advanced

Scroll down to Display > Measurement Units > Millimeters > click ok

Step 3 : Creating the Label Template

From the Tools menu choose Mailings > Labels

Choose Label and select Options

Choose New Label and give an appropriate Label Name

(e.g. ST-16A4 100 for 16 ups label)

Fill the desired dimensions from the table provided for mm in the pack

Select Paper size as Custom (210x298.4 mm) from the Options

Click Ok twice, and then click on New Document

Your desired custom label template is now ready

You can now type or mail merge the data in label template

Step 4 : Printer Settings for Label Templates

Go to Page Layout > Click Size > Click More Paper Sizes > Select Custom size (210 x 298.4 mm)

Go to File Menu > select Options > go to Advanced > select Print > Deselect Scale content for A4 or 8.5"x11" paper sizes

If the Text and Graphic appears to go beyond the label size, reduce the font / graphic size & align it to the centre
