Syphons are used mainly to protect pressure instruments, gauges, switches and transmitters directly coming in contact with high temperature process fluids or vapors. Filled with condensation fluids, these are mounted between process and pressure instrument. They reduce process pulsation, act as heat dispenser and generate cooling effect to save instrument from working at dangerous temperature. The U Type Syphon is normally used for horizontal installations.

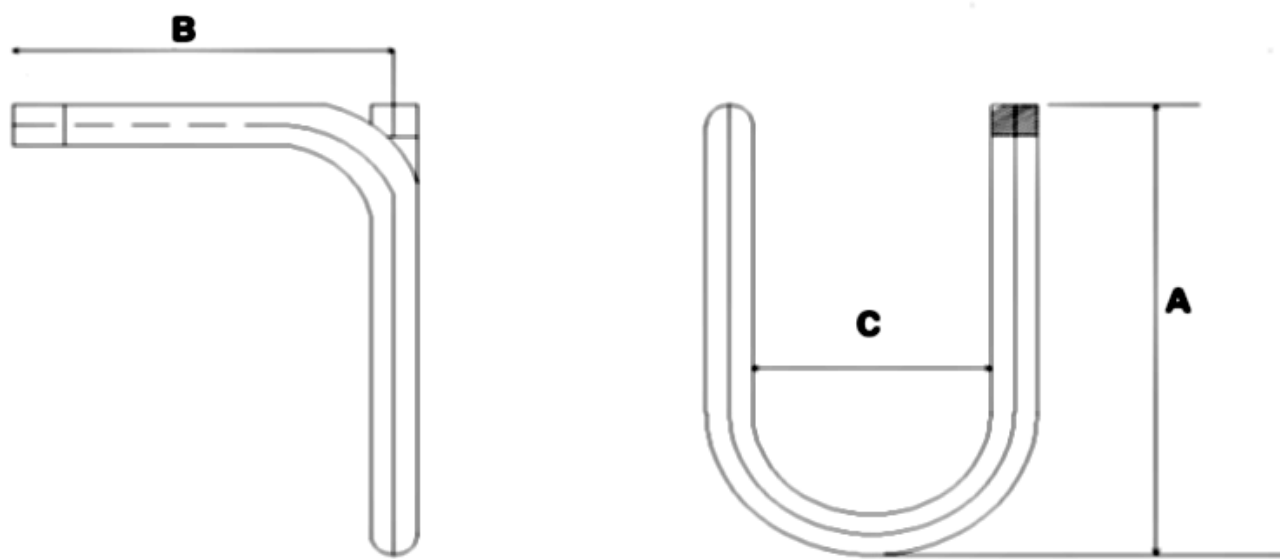

Standard Specifications :

Syphon Type : U

Material Of Construction :

304 SS / 316 SS

Dimensions :

A	B	C
155mm	155mm	90mm

Ordering Code :

SU01	MOC	CONNECTION	THREAD TYPE	PIPE SCHEDULE
1	SS304	A	3/8" M X 3/8" F	40
2	SS316	B	3/8" M X 3/8" M	80
		C	1/2" M X 1/2" F	
		D	1/2" M X 1/2" M	

Sample Code : SU01-1-B-1-40
