

## Medical Ultra Low Temperature Deep Freezer

**Product Features:** It is suitable for research institution, ultra low temperature experiment for special material, electronic industry, war industry, university laboratory, biological engineering, pelagic fishery and so on.

It can be used to store virus, germ, RBC, WBC, skin, skeleton, bacteria, semen, Biological product, ocean product and low temperature test for electronic devices.

▲ DW-W58

▲ DW-L58

▲ DW-L608

### Temperature Control Function

- ◎ Micro-computer control, digital temperature display, adjust unit is 0.1°C.
- ◎ Temperature is adjustable. Temperature difference of start-up and shut-down can be set.
- ◎ High and low temperature alarm function, alarm temperature can be set as needed.

### Safety System

- ◎ Perfect alarm system with buzzer sound and lamp flashing alarm functions.
- ◎ High and low temperature alarm, sensor fault alarm function are available.
- ◎ Multiple-protection function (Pass word protection, frequently start-up protection, refrigerating system operation protection when sensor is faulted).

### Refrigerating System

- ◎ Ultra-thick foam layer, dual-sealing design of door, for effective temperature protection.
- ◎ Optimized auto-cascade refrigerating system, imported famous brand compressor, for excellent refrigerating performance.
- ◎ Reasonable evaporator design, ensure the most effective flow of refrigerating fluid and

the uniformity of temperature in the cabinet.

- ◎ Unique fluoride-free mixed refrigerant fluid, 100% CFC-Free.
- ◎ Single-compressor system, fewer parts for lower failure rate and energy consumption.
- ◎ Germany EBM noiseless fan, for stable performance and lower noise.

### Humanized Design

- ◎ Food-grade stainless steel liner, never get rusty, which is safe for samples.
- ◎ Heavy duty casters design, convenient to move.
- ◎ Safety door design, for prevention of accidental open.
- ◎ LED temperature display, convenient and clear to observe.
- ◎ Suitable for using at environmental temperature of 10°C~30°C.
- ◎ Optional digital temperature recorder, convenient to record and store performance data at special condition, equipment with USB connector to copy data for analyzing.
- ◎ Wide voltage range design, suitable for using when the voltage is 187V~242V.

### Products Parameters

Model	External Dimension	Internal Dimension	Temperature	Power	Net weight	Voltage	Capacity
	W*D*H(mm)	W*D*H(mm)	(°C)	(W)	(Kg)	(V/Hz)	(L)
