

DONJOY[®]

Playmaker **XPert**

Two new functional
knee braces

Playmaker XPert

Engineered by DonJoy, the new Playmaker XPert functional knee braces combine some of the best features of the Playmaker range into a compact, efficient and attractive offering.

When even mild ligament strains & pain can affect daily or leisure activities, the new Playmaker Xpert braces will provide the stability and the comfort required to regain secure movement.

By introducing the new Playmaker XPert braces, DonJoy, once again, places the patient's needs at the heart of its concerns.

Indications

- Protection, compression and support for mild knee sprains, mild to moderate medial/lateral ligament lesions, chronic instability, return to activities
- Sleeve version also indicated for meniscus injuries or mild patella laxity

Available in 2 design options:

Sleeve

Wraparound

Therapeutic Benefits

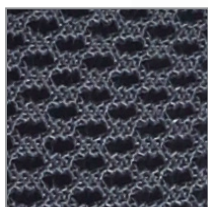

- **Pain relief** - The compressive effect of the brace helps reduce swelling and helps alleviate pain
- **Stabilisation** - Bilateral hinges support the unstable knee joint, helping the patient regain confidence and mobility
- **Proprioception** - Bracing can help improve neuro-motor-sensory response and coordination, helping decrease the risk of re-injury

Features & Benefits

Low Profile design

- Reduced brace height (33 cm) makes for a more profiled aspect

Cool sensation

- Hi-Tech breathable spacer mesh fabric provides constant freshness
- This innovative material, promotes airflow and enhances overall comfort

Medial & Lateral support

- Removable aluminium polycentric hinges ensure medial / lateral stability
- Bilateral stays provide support to unstable ligaments
- Stays are malleable and can be shaped to conform to patient's needs

Covered hinges

- The hinges are encased for added protection from lateral impacts (ideal for sports use)

Patella stability

- Insert helps maintain patella in correct position
- Improves stability in cases of patella laxity

Adjustable compression

- Upper & lower straps allow compression levels to be adjusted according to needs
- Straps also enable optimal individual fit

Wrap version

- Facilitates applying and removing the brace for patients with dexterity issues

Popliteal comfort

- 4-way stretch, soft, form-fitting posterior panel on popliteal area
- Enhances comfort & fit, and promotes airflow
- Allows unhindered movement, even during flexion

Bilateral model

- Fit Left or Right knee
- Brace height : 33 cm
- Available in 7 sizes (XS to XXXL)
