The VE-M1 microscope was specially designed for educational purposes. Ideal for basic science applications and field work thanks to its rechargeable battery and up to 40 continuous hours of usage on a single charge. Its simple design and excellent quality make it ideal for the observation of flowers, plants, fungi, pollen, insect extremities, protozoa and mold on bread or fruit.

VE-M1
Monocular Microscope

The VE-M1 microscope was specially designed for educational purposes. Ideal for basic science applications and field work thanks to its rechargeable battery and up to 40 continuous hours of usage on a single charge. It’s simple design and excellent quality make it ideal for the observation of flowers, plants, fungi, pollen, insect extremities, protozoa and mold on bread or fruit.

**SPECIFICATIONS**

**EYEPiece**
WF 10X/18 mm with block screw.

**Head**
Monocular head, 45° inclined and 360° rotatable.

**Nosepiece**
Triple nosepiece with click-stops.

**Objectives**
4X, 10X and 40X (S), achromatic optics and color ring for easy identification.

**Stand**
Stative, robust and reinforced with epoxy paint finish.

**Stage**
Flat, 3.70” x 3.70” with two stage clips and height adjustment.

**Condenser**
N.A. 0.65.

**Diaphragm**
Disk type.

**Focusing**
Coarse and fine anti-slip control knobs.

**Illumination**
LED.

**Weight**
6.16 lb / 2.79 kg.

**Dimensions**
6.69” x 10.24” x 14.96” / 16.99 x 26 37.99 cm

**Power Supply**
Three 1.2V AA rechargeable batteries (included) for 40 hours of continuous operation. 110-240, 50/60 Hz.

**Accessories Included**
AC/DC adapter.
Dust cover.
