VE-S6
Binocular Stereoscope with Zoom System

The VE-S6 is the ideal for professional use in higher education, research and industrial procedures. A versatile device, useful in production procedures or quality inspection of industrial products, thanks to its zoom system. Its Greenough design allows three-dimensional observation of insects and possesses a wide field of observation provided by its eyepieces. The VE-S6 is the perfect device for the dissection and classification of organisms in entomology and taxonomy, as well as livestock for the observation and selection of viable embryos.

The VE-S6 is the ideal for professional use in higher education, research and industrial procedures. A versatile device, useful in production procedures or quality inspection of industrial products, thanks to its zoom system. Its Greenough design allows three-dimensional observation of insects and possesses a wide field of observation provided by its eyepieces. The VE-S6 is the perfect device for the dissection and classification of organisms in entomology and taxonomy, as well as livestock for the observation and selection of viable embryos.

**SPECIFICATIONS**

**EYEPIECES**
WF 10X/22 mm with rubber eyecups and diopter adjustment on both eyepieces.

**HEAD**
Binocular head, 45° inclined with zoom adjustment knobs.

**OBJECTIVE**
With zoom system for variable magnifications of 0.67X, 0.7X, 0.8X, 1X, 1.5X, 2X, 3X, 4X and 4.5X (from 6.7 to 45 total increases) and objective cover.

**STAND**
Stative, robust and reinforced with epoxy paint finish.

**STAGE**
Interchangeable between translucent white and double side white/black, with a pair of stage clips.

**FOCUSBING**
Coarse anti-slip control knob with tension adjustment.

**ILLUMINATION**
Transmitted and incident LED light with independent variable intensity control.

**POWER SUPPLY**
110-240V, 50/60 Hz AC adapter.

**ACCESSORIES INCLUDED**
Dust cover.
Operation manual.
