

## VNT -001 Sound/Noise Transducer Verge City Ambient Noise Sensor

### Data Sheet

#### Features

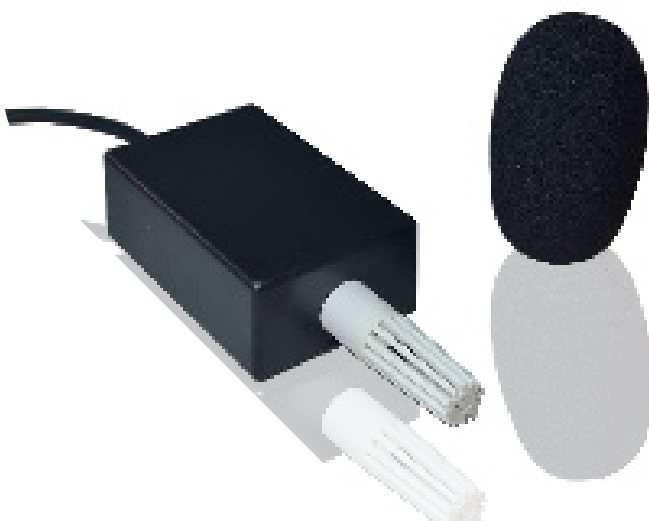

The VNT-001 from Verge Solutions is part of the 5V, Modbus and weather compatible range of sensors the connects to the Captis range of loggers.

This system design of the sound level meter is mainly used for the onsite real-time measurement of various types of noise such as environmental noise, traffic noise, workplace noise, construction noise and ambient city noise.

Has a wide frequency and dB range to meet the needs of surveys or studies.

#### Specifications

<b>Measurement Type</b>	Noise
<b>Measuring Range</b>	30dB~120dB
<b>Frequency Range</b>	20Hz~12.5kHz
<b>Weighting</b>	A Weighting
<b>Output</b>	Modbus
<b>Power Supply</b>	5VDC
<b>Power Consumption</b>	20mA
<b>Wake time</b>	2 Seconds

\*\*\*Optional weather shield in image for illustration

### Compatible With:

Captis Multi, Captis Power Plus, Captis Solar.
