Security Clamp

Features

- Allows the trolley to be secured to the 'fabric of the building'
- Requires no additional keys, utilises the trolleys own locking system
- One end is secured to the wall, the 'hook shaped' end is trapped by the door / lid of the trolley when closed & locked
- Recommended wall fitting height approx 1000mm

Important Note - Security Clamps
 It is a requirement that when the trolley is not in use it should be secured to the 'fabric of the building'. Not only does this prevent casual theft, i.e. trolleys being pushed to an isolated area & broken into, but also encourages good nursing practice, giving the trolley a "permanent home".

“Safe & Secure Handling of Medicines - Royal Pharmaceutical Society, GB-March 2005”

Fitting Your Security Clamp

Securely fasten one end of the clamp to the wall

The 'hook shaped' end is trapped by the door when closed & locked

Item	Description	Cable Length	Weight
MT/1/6F	Security Clamp	950mm	0.75kg
