REMOVABLE DEVICE HOLDER

To assemble your device holder, remove rubber cap from controller (replace when device holder not in use to prevent build up of dust & debris) and slot device holder into space. The viewing angle can be changed by moving top part of the holder.

REMOVABLE LIGHTNING CABLE

The lightning connected cable can be removed, this is only to be done if the cable is needing to be repaired. To remove, firmly push a pin into the hole located beneath controller and push tab away from controller using your thumb.

Further video guides can be found on RiotPWR.com

LIGHTNING CONNECTION

Ensure your phone is safe and secure in the provided mobile device holder, then connect your device using the built in Lightning connected cable. Alternatively you can connect the built in cable directly to a device without using the device holder.

LED LIGHTS

The LEDs are built in for future multiplayer functionality. The first light will illuminate briefly to indicate controller connection.

PASS THROUGH CHARGING

While the controller is connected to your iOS device, connect the power source via the Lightning receptacle on your controller to charge your phone or tablet while playing.

AUDIO JACK

Connect your headphones 3.5mm jack to this port to listen to your gameplays audio. This port will also supports headphones with microphones.

SUPPORT

For customer support for your controller please contact support@RiotPWR.com

LEGAL

iPad and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. iPad Air, iPad mini and Lightning are trademarks of Apple Inc.

"Made for iPhone" and "Made for iPad" mean that an electronic accessory has been designed to connect specifically to iPhone, or iPad, respectively, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with iPhone, or iPad may affect wireless performance.

WARNING

We buy our components from Apple, MFi (the Apple regulations) specify that the lightning connector **MUST** break if forced in the wrong direction (either through dropping or rough handling) to ensure no damage is sustained by the phone.

With this in mind extra care should be taken to avoid rough handling to prevent breaking.

LUDU MAPP

AFFILIATE APP

Rotor Riot is the official controller of the Ludu Mapp app. There are over 1000 controller compatible games and uses available via the app. Additionally Ludu Mapp will share great offers, walkthroughs and tips for your favorite controller compatible games.

Download Ludu Mapp from The App Store.
