

DETERMINE YOUR RING SIZE

Use this Ring Sizing guide for your next purchase at Jewelry Lane. Buy with confidence, Jewelry Lane offers free ring size adjustments. For your convenience we've included three easy methods. Start by measuring the bar in the box below. Ring sizes are very precise, if the measurement below is wrong, please check your printer settings for 'Page Scaling' and set it to 'none'.

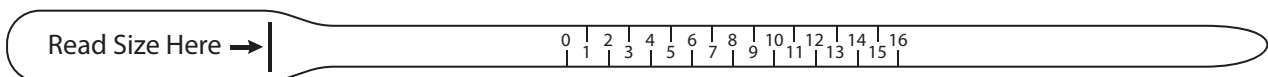

Method 1: The String Sizer

- Wrap a small piece of string around the finger you want to measure (snug enough to not slide off, but loose enough to fit over your knuckle).
- Compare the measurement with our sizing chart.

TIP: Double check for accuracy or ask a friend to help you measure!

Method 2: The Cut-out Ring Sizer

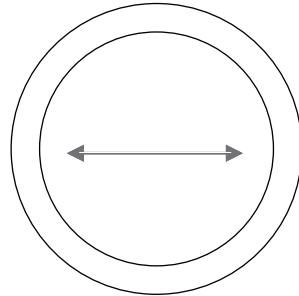

- Print this guide and cut out the Ring Resizer above. Cut a small slit next to the arrow.
- Place the Ring Sizer around your finger and slide the pointed end through the slit. Tighten the Ring Sizer until the fit is snug, but comfortable (snug enough to not slide off, but loose enough to fit over your knuckle).
- The arrow next to "Read size here" will tell you your ring size.

Method 3: The Comparison Sizer

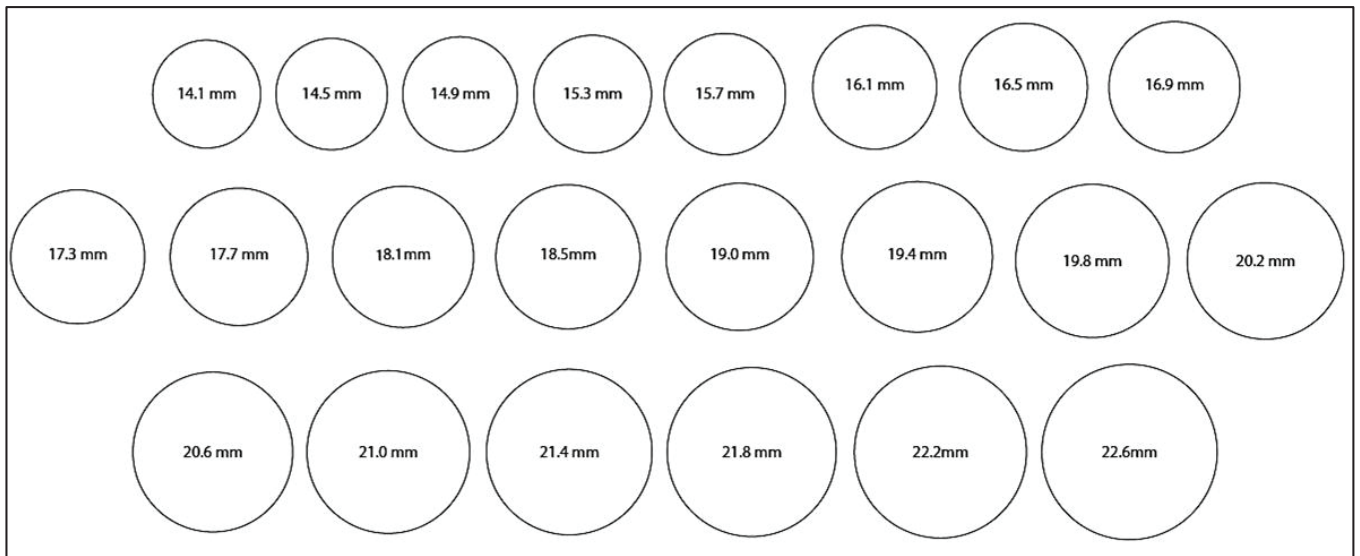

Measure a current ring by placing it on top of the circles below. Be sure to measure the inside diameter!

TIP: If your ring size is between two sizes, order the larger size!

Measure the inside diameter

Sizing Chart

BONUS TIP: Buying a gift for someone? Ask their best friend or mother if they know the ring size. Alternatively, borrow one of their rings (be sure the ring fits the correct finger!) and use this guide. Purchase with confidence! Jewelry Lane offers free resizing services.
