## About us

Shop Furniture Group is a leading retailer supplier, manufacturer of high quality marketing and merchandising display products with a long-term experience in producing custom made furniture and is a leading service contractor. Our goal is to provide a one-stop-shopping experience for commercial, professional. We have built partnerships which rely on our high standard of service around the world. We sell and manufacture shop fittings for retail chain stores with innovative solutions. In addition to point of purchase and point of sale fixtures, Shop Furniture group offers custom made furniture, s like retail display products and facilities furniture with extensive market knowledge, venue insight and nationwide relationships, regardless of location, Shop Furniture Group can help clients easily navigate the projects and deliver customized superior service. We have clients throughout most parts of Europe and we serve our clients from our warehouses in Estonia, Germany and Sweden.

## Our Service

Our service hallmarks are our commitment to quality customer service. In addition, having selections of products in stock display products allow us to offer affordable, competitive pricing structures designed for businesses of all sizes. Our standard cost structure features base prices when you order direct from factory with bulk discounts.

We can also provide discounts on low quantities when you buy from our stock supply.

It allowing small businesses to get the best deal on product display marketing supplies.

In fact, many choose to buy direct from factory with longer delivery times but with much higher discounts.

# Metal Shelving

### **Shop Furniture Group metal trading racks**

Produced for stores with a pitch of rack perforation of 25 mm, which allows you to place more shelves and increase the display area of the goods. A low base height of 110 mm also contributes to this. All this reduces the "dead" space and allows you to maximize the use of the retail space of the store. All the structural elements racks serve to ensure the high load-carrying capacity of the sections, which is not inferior to the best foreign analogues. Combine modularity and flexibility, creating a harmonious space in the store.

### **Front racks**

Are the most popular and effective shelving system for storing both homogeneous and heterogeneous cargoes on the pods.

### **Integrated racks**

This is one of the most effective solutions for warehouse stores, where the area is used both for storing goods and for serving customers. Compatible

### **Standard dimensions**

#### **Hight:**

1000 to 3500 mm with a step of 100 mm.

#### **Width:**

# Custom made furniture

Shop Furniture Group specialize in long term production series.

We design and build commercial interiors and gained experience from years of shop or storage fittings and are committed to provide exceptional service and high-quality products.

We work with a large range of raw materials.

Ash, oak, beech. Sheet materials especially MDF and plywood.

Working in this industry can be extremely rewarding as we are often able to help to convert a designer's ideas into a viable piece of furniture.

We can build your custom furniture together and deliver it partly depending on size.
