Spend the day focusing on one hair extension method, covers theory, consultation, colour matching and practical.

Viola courses are perfect if you already have experience with hair extensions and you want to learn a new method or add a string to your bow. With a maximum of 10 people per class ensures a relaxing interactive learning environment.

Choice of methods

Nano Tip

Nano Tip is Violas most popular method of hair extensions application, very discrete with the use of tiny beads able to add length and volume to even fine hair.

Tape-in

Tape-in method is rapidly growing in population with hairdressers and clients for its fast application and removal, adds length and volume in minutes! Tapes lay flat to the scalp, which allows the hair to be undetectable and comfortable.

NEW Invisible Weave

Popular with celebrities, the invisible weave when mastered is a quick and easy way to add length and volume without the use of heat or glue.
