

Helix Small Static Filter

BENEFITS of the Helix Small Static Filter

- This is a simple, easy to understand, large-capacity Waterfall Filter.
- The slim profile of this filter makes it easy to install & disguise in the landscape

FEATURES of the Helix Small Static Filter

- Three Blue Matala filtration pads
- One media bag for lava rock or other filter media
- Heavy Duty Roto Molded Body
- Stainless Steel Hardware
- Made in America
- High Quality Plumbing Parts
- 2" Bulkhead for water inlet
- Filter dimensions: 18" Long x 18" Wide x 32" High
- Works well in flow rates of up to 8000 gph.

ADDITIONAL OPTIONS:

- The Helix Static Waterfall filter can be upgraded to be a Helix Moving Bed Waterfall Filter or a Helix Bio Mechanical Reactor as the body styles are the same.
- Where a cover is desired, the Atlantic Water Gardens RL30 Faux Stone Cover is a great fit and comes in Desert, Great Lakes, Mountain and Southern Rock patterns.
