I've been taking Mastermind for about six months now. I work in Software Development so a lot of focus, concentration and problem solving is involved. My mind definitely feels sharper when I supplement with this product!

JASON CLERKIN
- SOFTWARE DEVELOPER

I took Mastermind during my leaving certificate year. I found that the supplement enabled me to prolong my focus. Without a doubt I would recommend it to students studying or undertaking tasks that require mental performance.

FREQUENTLY ASKED QUESTIONS

What is Mastermind?

Mastermind is a super supplement focused on the brain, with key ingredients contributing to brain, psychological, cognitive function, mental performance and the nervous system. Mastermind's unique formula was reviewed by the internationally renowned Brain Performance and Nutrition Research Centre at Northumbria University UK.

Who is Mastermind formulated for?

Mastermind is formulated for students, working professionals and the active aging.

How do you take Mastermind?

Empty contents of the sachet into a glass and add approx. 300ml water and stir to dissolve. If the water is chilled it may take longer to dissolve.

How much should you take each day?

It is recommended to take one sachet a day, at any time, preferably with food. One sachet a day is recommended for adults aged 18 years and over. Ages 15 to 17, take one sachet every second day, maximum three per week. Not recommended for children 14 years or under. Food supplements should not be used as a substitute for a varied diet and healthy lifestyle. Do not exceed the recommended daily intake.

Caution

As with any nutritional supplement please consult your doctor before use, especially if pregnant, breastfeeding, if you have a known medical condition or are taking any other medication.

Allergens

For allergens, see ingredients in **BOLD**. Mastermind is manufactured in an environment that handles fish.

Ingredients
