Eye Protection

9H Scratch Protection

Bubble-Free Installation

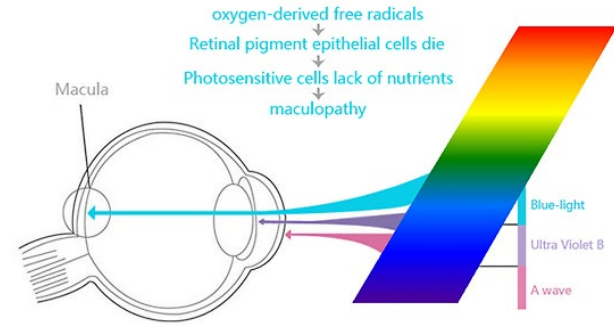

Quick & Easy Installation

Preserver Anti-Blue Light Glass Screen Protector 0.26mm

Protect your eyes from damaging blue light with this high-energy wavelength (HEV) blocking screen protector. Made with tempered glass that maintains perfect clarity, it's so thin you will barely notice it's there and features a precisely machined with a 2.5D curved edge so it won't peel or catch on other objects. Treated to reduce fingerprints and glare, the glass also provides an incredible 9H level scratch protection.

- Protects your eyes from harmful blue light
- Curved 2.5D edge
- 9H level scratch protection
- Anti-fingerprint treatment
- Easy to install

What is blue light?

Blue light is a range of high-energy visible light (400-500nm) which has been shown to cause macular degeneration. This type of light is emitted by LCD displays like computer monitors, televisions, tablets and smart phones, and can not only increase the rate of macular degeneration but also eye fatigue, dryness and irritation.

Cables & Adapters

Essential accessories to connect you to a world of accessories.

FlexLink Lightning to USB Cable

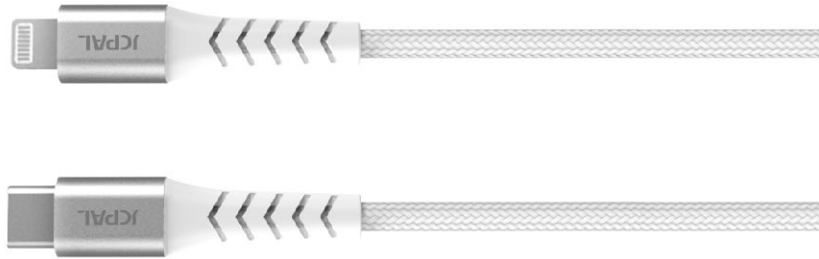

The ultra-tough FlexLink Lightning to USB Cable is designed to last. With hardened PVC connector shells, a braided polyester sleeve and flexible strain reliefs to prevent fraying, the FlexLink boasts a 10,000+ bend lifespan making it 6 times stronger than typical Lightning cables. The 1.8meter length makes it ideal for users with chargers in hard-to-reach places, or for anyone who like to use their devices while they sync or charge.

- Flexible PVC strain reliefs prevent fraying
- Apple MFi certified for guaranteed compatibility
- Durable braided polyester fiber sleeve
- Supports 2.4A fast charging
- 6ft (1.8m) length

- Black: JCP6133
- Red: JCP6134

- White: JCP6135
- Gray: JCP6136

JCP6193

FlexLink USB-C to Lightning Cable

Enjoy lightning fast charging on your iPhone 8 or later with the USB-C to Lightning cable. Compatible with the latest Power Delivery charging technology, you can charge your iPhone 8 up to 50% in only 30 minutes using an 18W USB-C charger or transfer and sync data with your USB-C laptop at up to 480Mbps. Engineered for guaranteed compatibility, the Lightning connector is Apple MFi certified and features a durable braided sleeve and flexible strain reliefs to prevent fraying and ensure a lifetime of use.

- Supports USB-C PD fast charging
- Data transfer at up to 480Mbps
- MFi certified for guaranteed compatibility
- Durable braided cable exterior
- Flexible PVC strain reliefs to prevent fraying
- 1 meter (3.3ft) length

Classic USB-C Charge Cable

The JCPal Classic USB-C Charge Cable is a slim and flexible cable supporting up to 3A/60W power pass-through so you can quickly charge your USB-C phone, tablet, camera or laptop. Supporting USB 2.0 data transfer speeds of up to 480Mbps for efficient data syncing, its smooth anti-tangle surface and 2-meter length makes it easy to use your device while it charges.

- Supports up to 3A/60W power pass-through
- Slim and flexible PVC jacket
- 2-meter length
- USB 2.0 data transmission speed

JCP6184

Classic USB-C to USB-A Cable

The JCPal Classic USB-C to USB-A Cable is perfect for charging or syncing your USB-C smartphone or tablet with your laptop. The slim and flexible cable supports up to 3A of power pass-through and allows you to charge your USB-C device with an older USB-A charger, battery pack or laptop USB port, as well as quickly sync or transfer data at up to 480Mbps.

- Supports up to 3A power pass-through
- Slim and flexible PVC jacket
- 1-meter length
- USB 2.0 data transmission speed

JCP6179

USB-C 9-Port Hub

Designed for digital creatives, this sleek and compact hub features a 4K HDMI port which allows you to mirror or expand your desktop to a high resolution external monitor. Three USB 3.1 Gen 1 ports provide a high-speed connection for all your USB peripheral devices such as hard drives and printers, and a Gigabit Ethernet port allows you to directly connect to the internet for faster than WiFi surfing speeds. Upload photos from your camera using the SD or microSD card slots and connect headphones or speakers using the 3.5mm Aux port. The hub also features a USB-C PD input port supporting up to 60W power pass-through so you can keep your laptop powered while you work.

- 9 total ports in one compact adapter
- HDMI port outputs crisp 4K video
- 3x High speed USB 3.1 ports
- Gigabit Ethernet port
- 3.5mm auxiliary audio port
- SD and microSD card slots
- USB-C PD power input to charge your laptop
- Durable aluminum shell

JCP6189

USB-C to HDMI Adapter With 2 USB Ports and Charging

The USB-C to HDMI adapter is the perfect way to add a HDMI port and dual USB ports to your MacBook, iPad or Chromebook while keeping it charged. Supporting resolutions up to 4K Ultra HD at 30Hz, this slim adapter lets you extend your desktop to a second display or watch movies and play games directly on your TV. The dual USB 3.0 ports allow you to connect external storage or a keyboard and mouse to your device, and the USB-C PD power pass-through port means you can keep your device charged at the same time.

- HDMI port outputs crisp 4K video at 30Hz
- Dual USB 3.0 ports supporting 5Gbps data transfer
- USB-C Power Delivery pass-through up to 60-watts
- Sleek and durable aluminum shell

USB-C to HDMI Adapter with 2 USB Ports

The USB-C to HDMI and 2x USB Adapter is the ideal way to add a HDMI interface and two USB ports to your new MacBook Pro or compatible USB-C device. Supporting resolutions up to 4K Ultra HD at 30Hz, this sleek adapter lets you extend your desktop to a second display or watch movies and play games directly on your TV. With the added functionality of USB 3.0 and USB 2.0 ports, you can connect USB devices such as external hard drives, a keyboard or your iPhone to your MacBook Pro.

- Sleek and durable one-piece aluminum shell
- HDMI port supports 4K resolution at 30Hz
- USB 3.0 port supports 5Gbps data transfer
- Blue LED indicates power and activity status

USB-C to USB 3-Port Hub

The USB-C to 3-Port USB Hub is a compact and convenient way to add multiple USB-A ports to your MacBook Pro or compatible USB-C device. The ultra-portable design and aluminum enclosure make it an elegant travel companion, and the combination of high speed USB 3.0 and 2.0 ports make it the perfect accessory for those wanting to connect external hard drives, flash drives, a keyboard or iPhone to their MacBook Pro.

- Sleek and durable one-piece aluminum shell
- Lightweight design
- USB 3.0 port supports 5Gbps data transfer
- USB 2.0 ports support 480Mbps data transfer
- Blue LED indicates power and activity status

JCP6147

USB-C to VGA Adapter with 2 USB Ports

Easily connect your MacBook Pro or compatible USB-C device to any VGA enabled monitor, TV or projector. Supporting resolutions up to 1920x1200 (WUXGA), this sleek adapter lets you extend your desktop to a second display or watch movies and play games directly on your TV. With the added functionality of USB 3.0 and USB 2.0 ports, you can connect USB devices such as external hard drives, a keyboard or your iPhone to your MacBook Pro.

- Sleek and durable one-piece aluminum shell
- Lightweight design
- USB 3.0 port supports 5Gbps data transfer
- Blue LED indicates power and activity status

JCP6148

USB-C to Gigabit Ethernet Adapter with USB Port

The USB-C to Gigabit Ethernet and USB 3.0 Adapter is the ultimate solution for adding an ultrafast wired network connection to your new MacBook Pro or compatible USB-C device. Supporting 10/100/1000Mbps network connections, this sleek adapter also features a high-speed USB 3.0 port so you can connect USB devices such as external hard drives, a keyboard or your iPhone to your MacBook Pro.

- Sleek and durable one-piece aluminum shell
- Lightweight design
- 10/100/1000Mbps RJ45 Ethernet port
- USB 3.0 port supports 5Gbps data transfer
- Blue LED indicates power and activity status

Chargers

Keep your devices charged and ready to go on the next adventure.

Dual Wireless Charger

The Dual Wireless Charger is an elegant one-stop charging solution for your Apple Watch and Qi-enabled smartphone. The built-in Apple Watch charger is MFi certified for guaranteed compatibility and frees up your existing Watch charger for use when you're travelling, while the case-friendly wireless charging pad automatically detects and provides the optimum charging speed for your Qi-enabled device (5W, 7.5W or 10W). With its compact and lightweight design, the Dual Wireless Charger makes an ideal nightstand or desk companion.

- Wirelessly charges your phone and Apple Watch simultaneously
- Smart case-friendly fast charging
- Built-in Apple Watch charger
- 18W power supply and cable included
- Qi compatible and MFi certified

Bolt 30W Car Charger

Enjoy high speed charging when you're on the road with the Bolt 30W Car Charger. Two independently powered ports provide up to a maximum 30W of charging power so you can charge a QC3.0 compatible device at full speed (18W) while simultaneously charging another USB device at 2.4A. The compact design features an aluminum case and an advanced charging and temperature control system that keeps you and your devices safe and charging at maximum speed.

- Independently powered ports providing up to 30W of power
- 18W Qualcomm Quick Charge 3.0 port
- 2.4A USB port for high speed legacy charging
- Built-in safety control system
- Can power 10W wireless car chargers
- Compatible with 12V and 24V outlets

USB-C PD Multiport Desktop Charger

Charge all your devices wherever you are with the USB-C PD Multiport Desktop Charger. Featuring a high powered 60W USB-C Power Delivery port for quickly charging your laptop or smartphone, an 18W Quick Charge 3.0 port and 2 USB ports for an all-in-one charging solution. Conveniently equipped with a removable AC plug for easy transport as well as international power input compatibility (100-240V), the USB-C PD Multiport Desktop Charger is designed to quickly charge your devices anywhere in the world.

- 60W USB-C Power Delivery port
- 18W Quick Charge 3.0 Port
- Dual USB-A ports for legacy charging
- Removable 1.5 meter power cord
- Internationally compatible 100-240V input range
