Product information

An innovative product that keeps workers cool for up to 8 hours. Using technologies and materials designed to prevent heat stress, this vest keeps the body at an ideal temperature allowing the wearer to work in comfort, even in the hottest and most humid of weather. Simply saturate the vest in water and squeeze to remove any excess. The vest can then be worn and will not wet any clothes underneath. When the vest becomes dry, simply repeat for a further 8 hours of cool comfort.

Cooling Vests

Portwest evaporative cooling products are constructed from Cooling 360° Fabric Technology which uses a unique polymer chemistry. Simply activate by soaking in water creating a chemical reaction within the fabric which enables the garments to act like a sponge; retaining water, keeping the body cool in hot weather conditions.
