Vermont Castings provides more than heat. It's the warmth that unites. Proudly crafted and casted by our artisans in Vermont, no detail is too small, no element insignificant. The timeless designs and furniture-quality finish set the scene for intimate memories.

Gas Stove Technologies

Direct Vent Technology With Direct Vent Technology, your stove can use outside air for combustion, expelling 100% of the combustion exhaust and by-products.

IntelliFire® Touch Ignition System IntelliFire Touch (IFT) is our most advanced intermittent-pilot ignition (IPI) system, making operating your appliance simple, smart and safe.

Standing Pilot Ignition System No power, no problem; the pilot stays on all the time and generates enough voltage to run the stove.

Controls and Additional Options

IntelliFire Touch Models

Standard Touchscreen Remote provides features including flame height adjustment, fan control, and a thermostat mode (depending on the model)

Optional IntelliFire® App Monitor your fire from anywhere or even control it with the sound of your voice with the IntelliFire app, compatible with Amazon Alexa and Google Assistant.

Standing Pilot Models (optional)

Touchscreen Thermostat Remote provides features including thermostatic control mode, six-hour timer mode, and sleep mode

On/Off Remote Features: on/off remote control, signal indicator, battery receiver

Warming Shelves Stylish, yet practical.

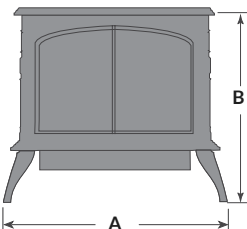

Variable speed fan kit to better distribute heat in your space. Fan comes standard on IntelliFire Touch (IFT) models.
